Doornakkers-West

Doornakkers-West Description

Our selected neighborhood is Doornakkers-West, and drawing on CBS 2024, Leefbaarometer 2014–2024, and Onderzoek040 data, its main characteristics and features can be summarized as follows:

A dense, small-household, and financially pressured neighborhood

- 3,555 residents living at 5,039 inhabitants/km², nearly twice Eindhoven's average *(CBS KWB 2024)*
- 52% of households consist of one person *(CBS KWB 2024)*
- Average income of €36,600 vs. €43,700 city-wide *(CBS KWB 2024)*
- 55% of households fall in the low-income bracket *(CBS KWB 2024)*
- Relatively high money worries (17%) and difficulty making ends meet (11%) *(Onderzoek040)*

Livability sits below the national average and has been declining

- Of the five Leefbaarometer dimensions, housing stock, physical environment, facilities, social cohesion, and nuisance & insecurity, nuisance & insecurity is the weakest and has remained the most negative every year since 2014 (~−0.36 in 2024), briefly easing around 2020 before worsening again *(Leefbaarometer 2014–2024)*
- Housing stock, previously near-neutral, newly turned negative in 2024 (~−0.28)
- Residents independently confirm this insecurity, reporting high levels of speeding-vehicle nuisance (38%) and aggressive-driving nuisance (19%) *(Onderzoek040)*

DW

Facilities are strong, improving, and well within walking distance

- Very short distances to a GP (0.7 km), supermarket (0.8 km), and school (1.1 km) *(CBS KWB 2024)*
- Facility score rising from ~+0.41 to ~+0.60 since 2014 *(Leefbaarometer 2014–2024)*
- Only 49% participate in an association and 62% participate in sports *(Onderzoek040)*
- Youth facility use is low at 10.2% *(Onderzoek040)*
- Social cohesion has stayed comparatively stable (~−0.16 to ~−0.21) *(Leefbaarometer 2014–2024)*

Health and wellbeing indicators point to real, underlying needs:

- 70% of Wmo-eligible residents actively use care support *(CBS KWB 2024)*
- 7.8% of children are in youth care *(CBS KWB 2024)*
- Residents report being among the unhappiest in the comparison set (13%) *(Onderzoek040)*
- Relatively high prolonged illness/confinement (4%) *(Onderzoek040)*
- Self-rated health appears to understate actual health status (13%) *(Onderzoek040)*

Data Conclusions

Overview of consulted Databases and main conclusions

Consulted Databases:

CBS "Kerncijfers Wijken en Buurten" 2024

Official neighborhood-level dataset on demographics, households, housing, income, social support, mobility, and amenity proximity statistics, used to establish Doornakkers-West's demographic and socioeconomic profile.

Leefbaarometer

National livability index comparing neighborhoods to the Netherlands average across five dimensions (housing, environment, facilities, cohesion, nuisance & insecurity) for 2014–2024, used as a proxy for safety and environment quality and to track livability trends over time.

Onderzoek040 Buurtkijker

Local resident-survey data from the Municipality of Eindhoven covering housing/living environment, milieu, work and leisure, wellbeing and health, and material prosperity, used to complement official statistics with residents' reported experiences, nuisance, and participation.

Main Conclusions:

- **Insecurity, not access, is the core problem:** nuisance & insecurity has been the dominant weakness for a decade (~−0.36 in 2024), supported by high reports of speeding (38%) and aggressive driving (19%). Meanwhile, facilities remain strong and improving (~+0.60), suggesting that infrastructure is available but the surrounding environment may feel unsafe to use. Despite this access, uptake remains modest to low (62% sports, 49% associations, 10.2% youth facilities), indicating a gap between availability and participation.
- **The neighborhood is on a worsening trajectory, compounded by financial and structural pressure:** livability peaked in 2020 (~−0.27) but has declined since, reaching ~−0.55 in 2024, while housing stock also turned negative. Social cohesion has remained comparatively stable, suggesting that deterioration is concentrated in the physical environment and safety rather than social ties. At the same time, below-average income, money worries (17%), difficulty making ends meet (11%), and 52% one-person households indicate limited financial capacity and less built-in social contact to buffer an unsafe **neighborhood environment**.
- **Underlying health and wellbeing needs add urgency:** high Wmo care use (70% of eligible residents), notable youth care involvement (7.8%), low reported happiness (13%), and elevated prolonged illness (4%) point to substantial health and social support needs. This suggests that livability challenges extend beyond the physical environment, making safe opportunities for everyday social contact particularly important.

Insights from Interviews

Key Pains & Gains from Resident Interviews

Interview Transcripts

Pains

- **Weak sense of connection to neighbors:** the resident doesn't know people nearby well, describing the street as feeling “empty” and “a bit strange”, people don't greet each other even in passing.
- **Missing exercise infrastructure in parks:** parks are used for walking and running, but the lack of gym equipment limits residents to cardio only, “one thing that is missing for sure is the machines.”
- **Low awareness of clubs or associations:** the resident has never heard of a neighborhood club, association, or activity, there's no visible way to find out what exists, so it's “not something I would search for even.”
- **Openness from neighbors is felt as lacking:** compared to their home country, the resident described the area as feeling more closed off and “a little bit foreign,” with few casual, unplanned interactions.
- **A few spots feel unsafe or neglected:** some alleyways were flagged as places the resident would consider sketchy, alongside a general feeling of emptiness on residential streets at night.

Gains

- **Green space is valued for wellbeing:** parks were named as the clearest positive factor for wellbeing, and are used regularly for walking and relaxing after work.
- **Traffic feels manageable day-to-day:** streets are described as generally calm, with only a mild increase in activity in the evening as people return home.
- **Daily routine allows flexible use of the area:** remote work lets the resident move through the neighborhood at their own pace, walking, visiting the center, occasional weekend trips, rather than feeling confined.
- **Genuine appetite for more community investment:** when asked what they'd change, the resident pointed to better-kept parks and more community activity as what would draw people outdoors and “make the day life more bright.”

Insights from Observations

Key Behavioral Insights from Observations

Observation Logbook - Key findings from all 5 team members logbooks

Key Behavioural Insights and Surprising Findings:

- **Green space exists but stays underused:** parks and outdoor gyms turned up within a short walk almost everywhere, yet equipment was consistently rusty, benches were scarce, and playgrounds stood empty even at midday.
- **Traffic is a safety concern:** drivers repeatedly ignored pedestrian priority near dogs, bikes, and even an unattended stroller, flagged independently by three different members at different times and streets.
- **Older residents are the most visible, but privately social, group:** seen walking dogs, cycling, and chatting in front gardens every morning and evening.
- **Turkish-run shops are the real social hub:** barbershops, a kebab place, and a small market stayed consistently busy, while the neighbourhood's two cafés remained closed until mid afternoon.
- **Small neglect**: loose sidewalk construction with no detour, litter, a tilted lamppost, and dim secondary street lighting recurred across multiple walks. Seen as a barrier for less mobile residents by some members that flagged this issue.
- **A visible north-south divide:** the north felt wider, greener, and better kept, while the south, near the canal, cemetery, and industrial edge felt quieter and more neglected, despite being one official neighbourhood.

Persona Identification

Persona 1: Jan

DESCRIPTION Jan, 19, Dutch trade school student who still lives with his family.

CONTEXT

- Goes to trade school during the day
- Walks around and goes to the park with friends
- Likes the park, but wishes the football pitch were bigger and better
- At night walks through the neighbourhood carrying a knife, after a bad brawl some months ago

PAIN POINTS

- Feels unsafe to hang out, play football and run at night
- Wants more organised and secure areas for his activities
- Sees a demographic gap between groups in the neighbourhood

LIKES

- Football with friends
- Walks in the park
- Focusing on his trade school work
- Running at night

DISLIKES

- Always having to think about whether it is safe to go outside at night
- Feeling the need to carry a knife for protection

WISHES Safety when out at night & Better facilities for activities such as football

KEY INSIGHT *Jan carries a knife to feel safe enough to enjoy the outdoor life he loves.*

Persona 2: Maria

DESCRIPTION Maria, 43, Dutch primary school teacher, divorced mother of three and lifelong resident.

CONTEXT

- Has lived in the neighbourhood her entire life
- Daily: gardens, works, visits her botanical garden, picks up the kids
- Goes to the neighbourhood gym 3 times a week
- Sporadically works at the soup kitchen; rarely out at night, meets friends in the centrum

PAIN POINTS

- Neighbourhood is losing its original charm: dirtier and far less safe
- Knows the area well, but feels nobody else does
- Considerable language barriers
- Little to do in the neighbourhood

LIKES

- Exercise: active and goes to the gym
- Gardening
- Hanging out with friends

DISLIKES

- Lack of safety
- Lack of centralised announcements
- No running club or group for communal exercise
- Disorganised, messy surroundings

WISHES Bring back the neighbourhood's former charm | A large garden or area where people can hang out together

KEY INSIGHT *Maria has deep roots here, yet takes her social life to the centrum: no shared place to meet.*

Where Jan and Maria meet

Jan

- Wants a bigger, better football pitch
- Plays and runs outside at night
- Sees a demographic gap between groups

Both of them

- Feel the neighbourhood is unsafe
- Want to be active outdoors
- Want social and organised places to do it
- Feel disconnected from their neighbours

Maria

- Dirty, messy surroundings
- Language barriers
- No central announcements

Safety and connection are one loop: unsafe spaces push people into private circles, and fewer neighbourly ties make the neighbourhood feel less safe.

Problem Statement

Problem Statement

Residents of Doornakkers-West across a wide range of ages want to be active outdoors and get to know their neighbours, but in the evening and at night, parks and other social spaces feel unsafe and offer few natural opportunities to meet. This keeps people in private circles, thus neighbours stay strangers, safety concerns go unshared, and the everyday contact that makes a place feel safe erodes.

WHO

Residents of Doornakkers-West of a wide range of ages

WHAT

Want to be active outdoors and get to know neighbours, but feel unsafe and have few natural ways to meet

WHEN / WHERE

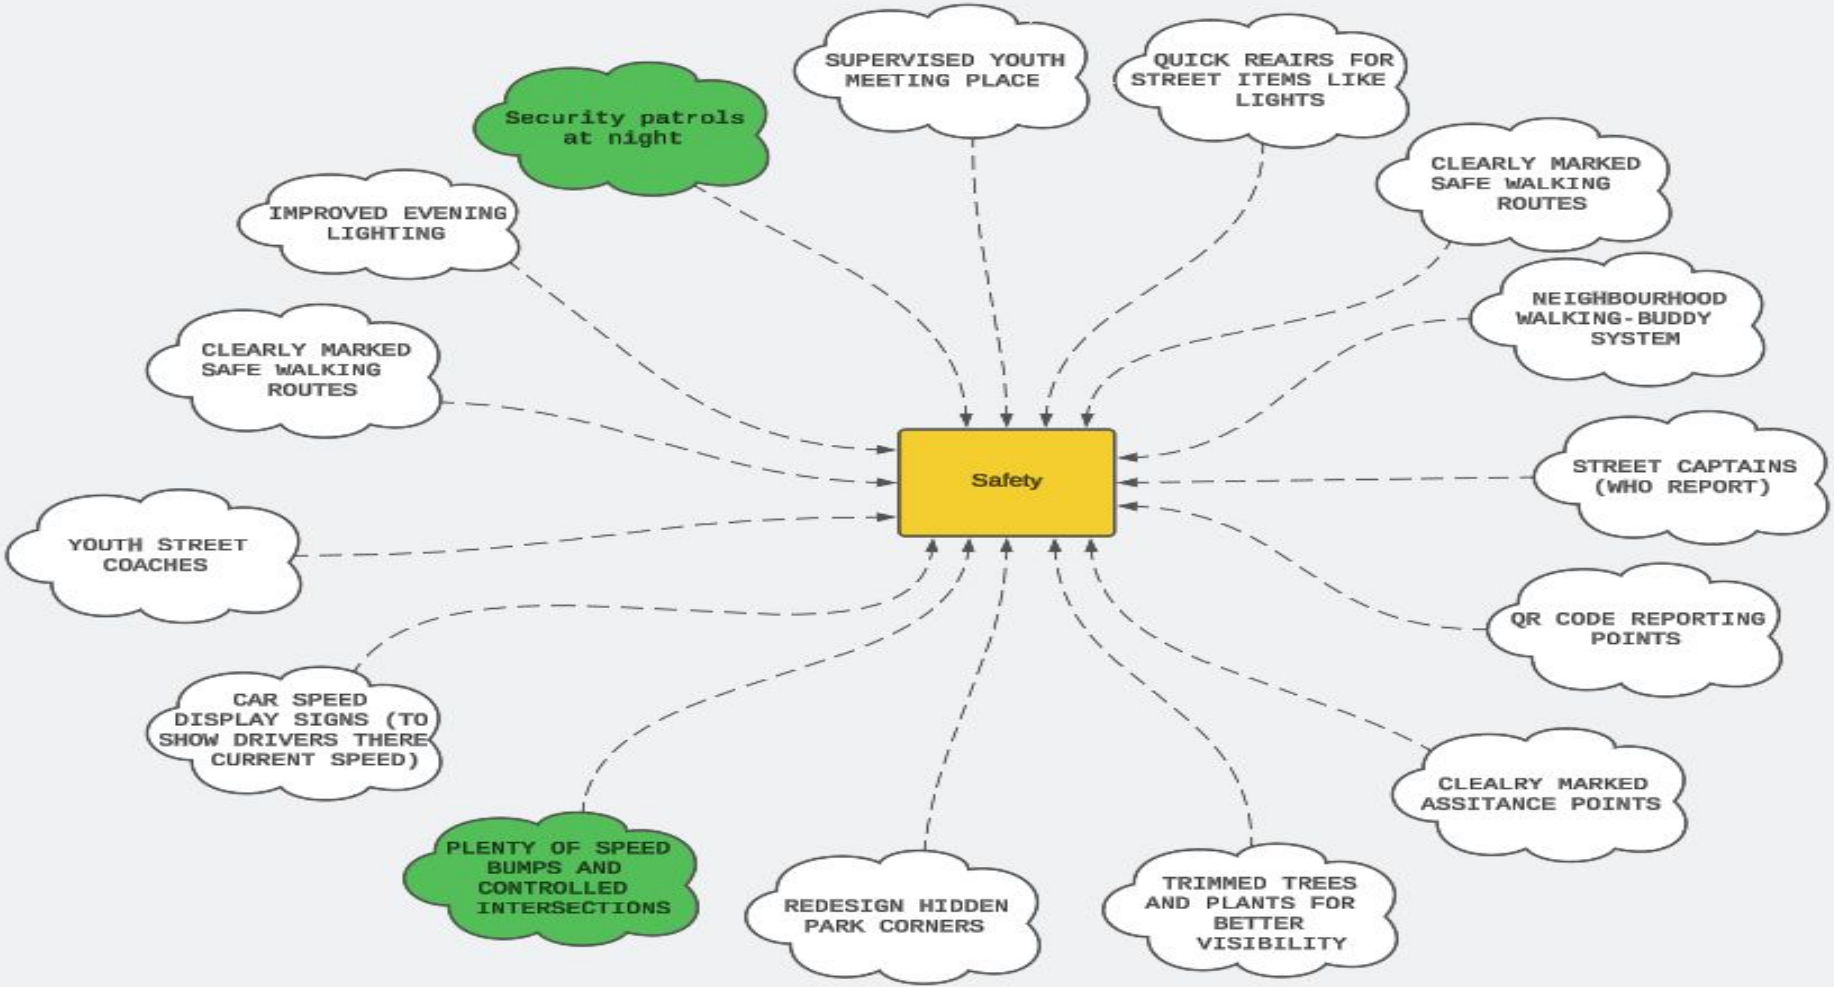

In the evening and at night, in parks and other social spaces

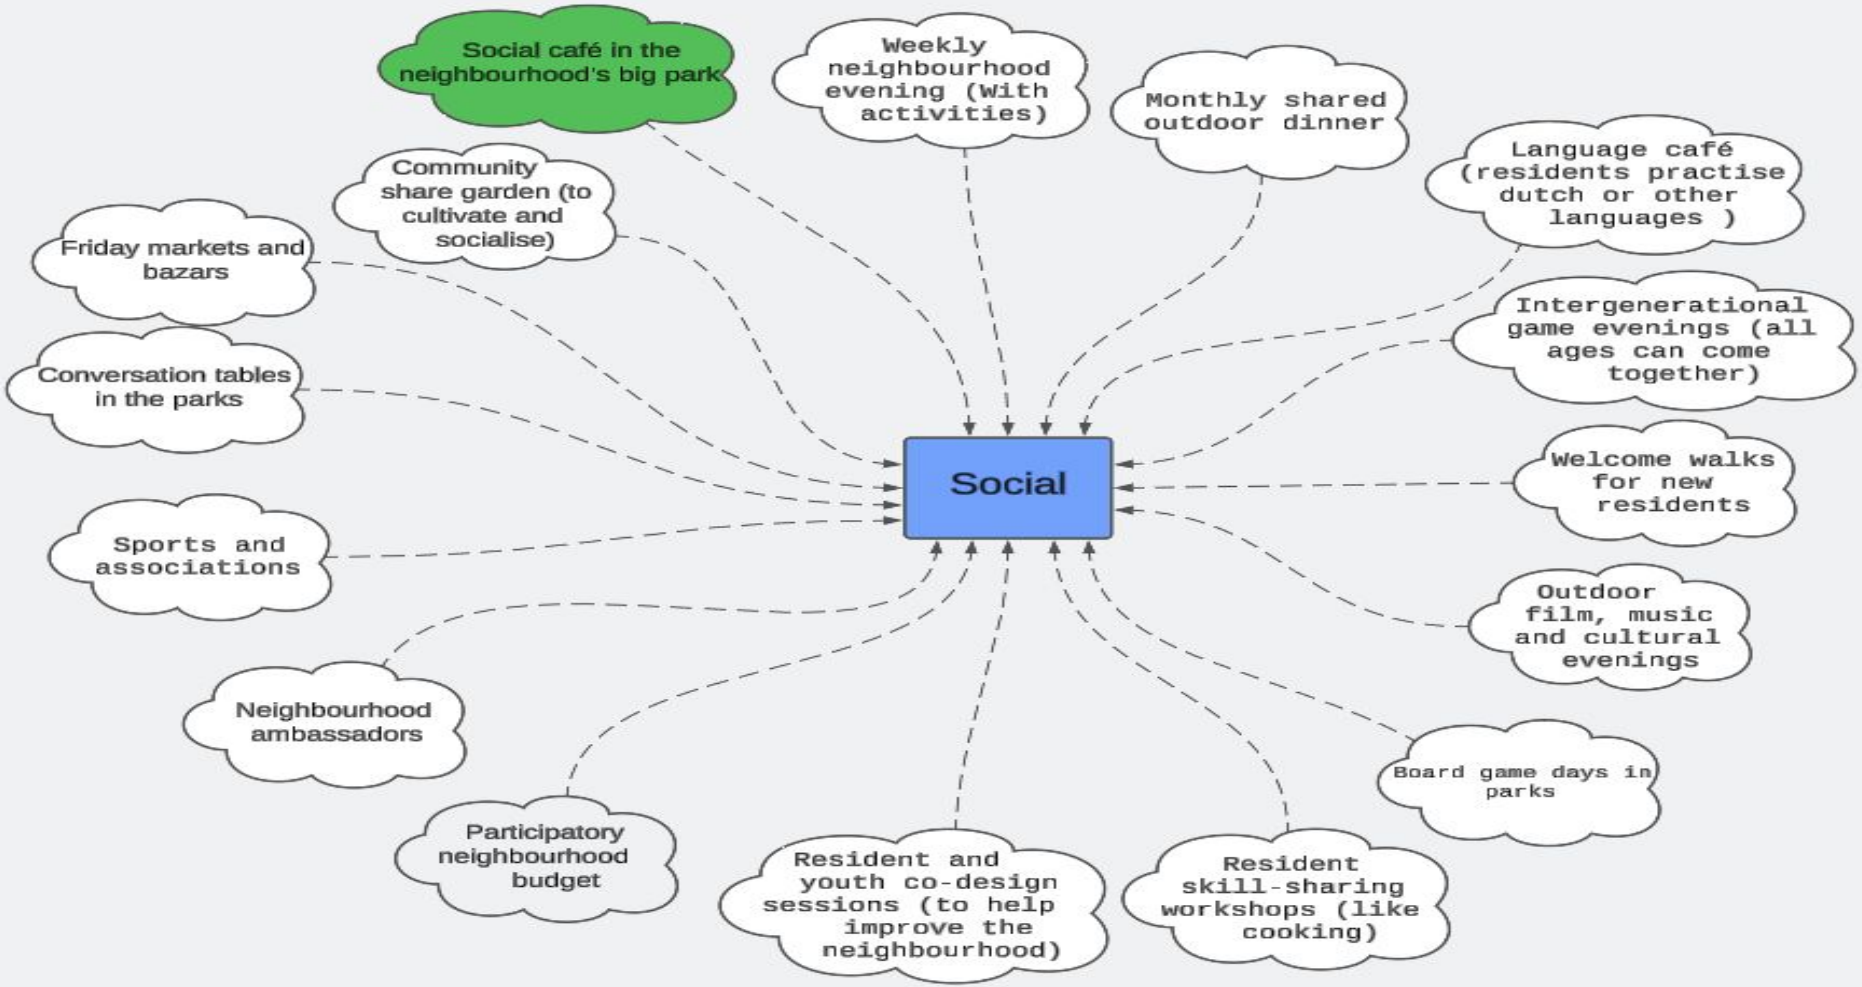

WHY IT MATTERS

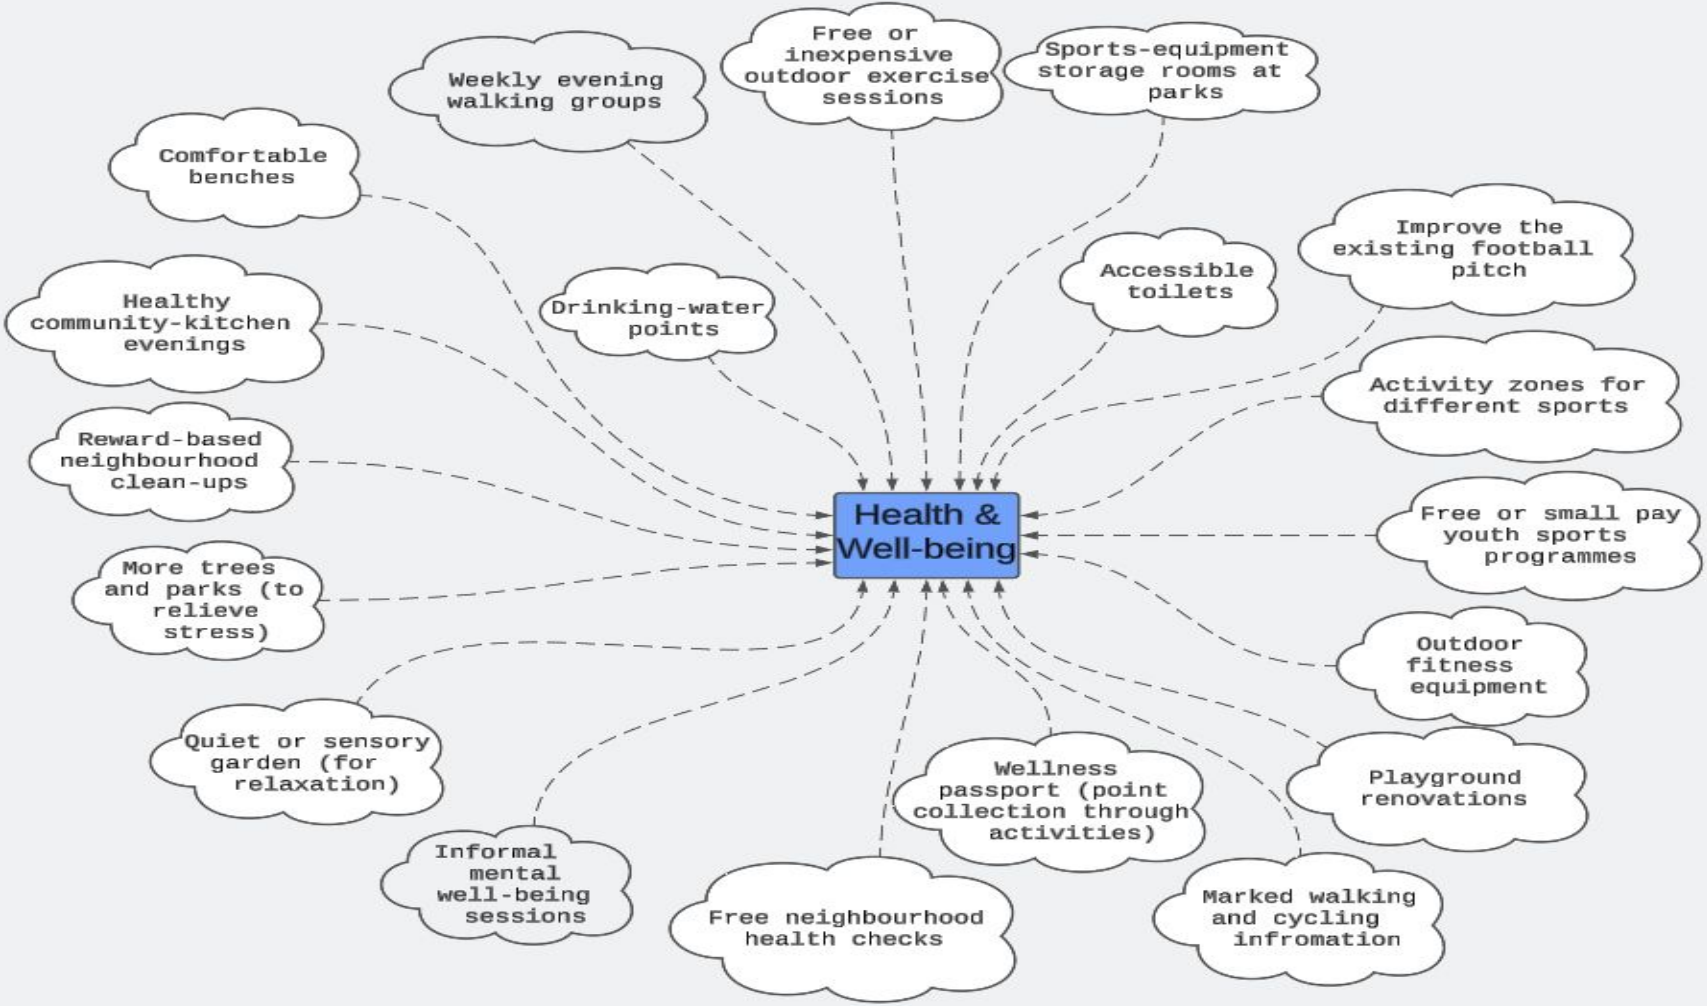

Neighbours stay strangers, safety concerns go unshared, and the contact that makes a place feel safe erodes

How might we make Doornakkers-West's evening public spaces feel safe and inviting enough for neighbours of all ages to use and share?

Ideation

Safety
Security patrols at night
SUPERVISED YOUTH MEETING PLACE
QUICK REAIRS FOR STREET ITEMS LIKE LIGHTS
CLEARLY MARKED SAFE WALKING ROUTES
IMPROVED EVENING LIGHTING
NEIGHBOURHOOD WALKING-BUDDY SYSTEM
CLEARLY MARKED SAFE WALKING ROUTES
STREET CAPTAINS (WHO REPORT)
YOUTH STREET COACHES
QR CODE REPORTING POINTS
CAR SPEED DISPLAY SIGNS (TO SHOW DRIVERS THERE CURRENT SPEED)
CLEALRY MARKED ASSITANCE POINTS
PLENTY OF SPEED BUMPS AND CONTROLLED INTERSECTIONS
REDESIGN HIDDEN PARK CORNERS
TRIMMED TREES AND PLANTS FOR BETTER VISIBILITY

Social café in the neighbourhood's big park
Weekly neighbourhood evening (With activities)
Monthly shared outdoor dinner
Community share garden (to cultivate and socialise)
Language café (residents practise dutch or other languages)
Friday markets and bazars
Intergenerational game evenings (all ages can come together)
Conversation tables in the parks
Social
Welcome walks for new residents
Sports and associations
Outdoor film, music and cultural evenings
Neighbourhood ambassadors
Board game days in parks
Participatory neighbourhood budget
Resident and youth co-design sessions (to help improve the neighbourhood)
Resident skill-sharing workshops (like cooking)

Health & Well-being
Weekly evening walking groups
Free or inexpensive outdoor exercise sessions
Sports-equipment storage rooms at parks
Comfortable benches
Improve the existing football pitch
Accessible toilets
Drinking-water points
Healthy community-kitchen evenings
Activity zones for different sports
Reward-based neighbourhood clean-ups
Free or small pay youth sports programmes
More trees and parks (to relieve stress)
Outdoor fitness equipment
Quiet or sensory garden (for relaxation)
Playground renovations
Wellness passport (point collection through activities)
Informal mental well-being sessions
Free neighbourhood health checks
Marked walking and cycling infromation

Preferred Ideas

- **Security patrols at night**: A security van will patrol regularly through the neighbourhood's parks and key areas, from 7 pm - 4 a.m. This makes it easy for residents to report concerns or suspicions. This idea addresses Jan's concern of doing activities out in the dark, as well as Maria's feeling that the neighbourhood has become less safe. The presence a security surveillance body could help residents feel more comfortable during all times of the day, and could encourage them to use shared outdoor spaces more often.
- **Social Cafe in the park**: A big spaced cafe, with an indoor kids playground, but also a place where people of all ages can join in regular community activities. Maria currently goes to the city centre to see friends because she lacks a shared nearby place, while Jan wants more opportunities to spend time with friends and to connect with other people. This cafe could help neighbours get to know one another and make the park a more social space.
- **Speed bumps and controlled intersections**: Addition of speed bumps on every residential streets and improve crossings at key intersections especially near parks and schools. Slower vehicles and more understandable crossing points would facilitate Jan in terms of walking or running in outdoor spaces. Additionally, Maria would travel with no concern through the neighbourhood with her children. This idea supports their shared wish for safer public spaces.

Anthropologist Logbook

Date 09/09/2026

Pangeran

Time	Activity	Notes
6:48	Old couple walking dog near cemetery	There was a bench area with lots of cigarettes
6:52	People throwing away trash in the	Trash bins, normal sorting, but some dirty and bags were outside
7:00	Cars speed by really quickly	Quite loud, driving etiquette not respected
7:02	People doing normal stuff/walking	Considerable number of minorities
7:08	Guy in truck sleeping with window open	
7:12	Couple walking dogs, car did not stop for pedestrian (no priority for walkers).	Driving etiquette is horrendous (speed, no priority given)
7:20	Some man is getting a haircut at a barbershop	Lots of hairdressers especially near Tongelrestraat
7:35	Old woman is exiting a small Turkish market	Other neighborhoods have more things than here (very little shopping facilities)
8:12	People in small cafeterias eating	North vs south (north has bigger streets, houses, more shops, better. South is sorta depressing, industrial, near canal, smaller houses, cemetery)
8:15	A woman is walking with a few shopping bags,	Light post is tilted slightly, there is a paper that incentivizes people to exercise more

Date 09/09/2026

Dimitrios

Time	Activity	Notes
11:30	Young adult running on the sidewalk	Sidewalk was semi-accessible, due to trees
11:33	Couple walking their dogs out at a grass park	Park had a lot of space but mainly grass without anything else
11:37	Waited around 5 mins to cross the road	Big uncontrolled intersection made it difficult
11:42	Two elderly men were having coffee in their garden	Social environment could be seen
11:50	Children playground was spotted	Looked old and very metallic instead of plastic, making it aesthetically unpleasing
11:54	Walked through a big park with a few exercise instrument and few benches	Not enough exercise instruments, especially ones accessible by elderly people. There could also be more benches to promote socialising
12:00	Wanted to drink a coffee but could not find a place near the park	Lack of coffee spots around the park, which is potentially resulting in the unsocial environment of the park
12:07	Saw a father with his daughter at a small playground	Playground seemed old and there were not any people besides them
12:15	While walking back to my bike I noticed a lot of construction on a sidewalk.	This made it very hard to traverse through and reach. Elderly people, in particular, could be troubled from such constructions, especially if there is no alternative path

Date: 10/9/2026

Filippos

Time	Activity	Notes
11:30	Started walking the neighborhood, the streets were quiet	Few people outside due to being a weekday morning, with most adults at work and children at school
11:36	Passed both existing cafes at the neighborhood, both closed	Both cafes were opening at 15:00, hinting very limited social spaces
11:46	Walked deeper into the residential area of the neighborhood	Houses appeared older in construction, street felt very quiet and calm
11:50	Elderly woman bicycling and elderly man walking his dog	Elderly residents seemed to be the main people outside at early hours
11:55	Elderly couple sitting in their front yard	Low-key social presence, limited to private areas rather than public social spaces
12:02	Passed 2 children playgrounds	Both empty at this time, not necessarily a sign of misuse
12:10	Passed 2 green parks	Only saw 2 people sitting on a bench in both parks
12:15	Found a basketball court, a small concrete football pitch and some working out instruments	Pitch was small and poorly maintained, showing lack of physical activity areas available for people to exercise
12:25	Passed a cluster of Turkish-run shops: 1-2 barbershops, a kebab shop and a small Turkish market	Visible ethnic-diverse commercial presence, these shops were the most active areas of the neighborhood
12:40	Crossed a main road with traffic lights, with cars coming from multiple directions	Seemed very chaotic and unsafe. At some point, the pedestrians light and cars light were both green.

Date: 12-09-2026

Marc

Time	Activity	Notes
16:04	Kebab place, seems to be turkish	Appears to only have turkish customers
16:12	Friets place	Higher variety of customers
16:25	Cigarettes in sidewalk	Street not cleaned or got dirty very fast, overall dirty streets in this side of neighbourhood
16:37	Second park encountered	After around 40 minutes, have encountered two parks already, neighbourhood appears to be green,
16:42	Rusty park activities	Approached park after walking a bit more, there are gym instruments, but seem to be rusty or not used often
16:58	Young person pacing	Many young people, but most alone and going somewhere
17:07	Dog park	Dog park where people seem to know each other
17:14	Group of older people walking dogs	Seen many groups of older people doing something together, especially walking their dogs
17:38	Fewer people in the street	Could be because dinner time is closing by or its getting outside
18:01	Dark street	Main streets are well illuminated, but secondary streets lack visibility

Raafi

Time	Activity	Notes
18:31	Walked the canal past old industrial buildings and rubbish.	Surprised how close it was to the water.
18:44	Passed an empty outdoor gym next to a cemetery.	Odd pairing, maybe why it's empty.
19:02	Crossed a muddy field as cars sped past.	Traffic felt too close to where kids play.
19:15	Passed older housing blocks with mess and neglect.	Small details of neglect stood out.
19:29	Sheltered from rain; saw an unattended stroller.	The stroller and speeding car caught my attention.
19:41	Passed a small square with shops and dog walkers.	Nice to see people out despite the rain.
19:56	Streets grew tidier with neat terraced houses.	Clear shift, though still quiet overall.
20:10	Passed a locked, empty school playground.	Felt quiet, likely little after-hours use.
20:19	Chatted briefly with an elderly man and his cane.	Only real conversation of the whole walk.
20:33	Passed a small Hindu temple among houses.	Unexpected find, worth asking about later.

Interview Transcripts

Dimitrios

Interview 1

00:00:01 Speaker 1
All right, so how it's going to go is I'm going to ask you a set of questions regarding the neighborhood here.
00:00:07 Speaker 1
And you can answer, but if you choose, you can just skip it.
00:00:13 Speaker 2
Okay.
00:00:14 Speaker 1
All right.
00:00:15 Speaker 1
So how long have you been living here in Doron Akers?
00:00:18 Speaker 2
I've been living here for the past three years.
00:00:21 Speaker 2
This is my fourth year.
00:00:22 Speaker 2
I've been staying in the same house and yeah.
00:00:26 Speaker 1
Okay.
00:00:28 Speaker 1
Walk me through like a normal weekday of yours.
00:00:31 Speaker 2
So for me, I work online, so I have remote work, but typically wake up, do the work and then go around for a walk in the park or maybe go to the center.
00:00:44 Speaker 1
All right, that's nice.
00:00:46 Speaker 1
What parts of the neighborhood would you say affected like positively in terms of well-being?
00:00:53 Speaker 2
I think for sure the parks.
00:00:55 Speaker 2
There are quite a few parks here.
00:00:59 Speaker 2
Yeah, the parks.
00:01:02 Speaker 1
Also another kind of personal question.
00:01:05 Speaker 1
What does being healthy mean to you?
00:01:07 Speaker 2
For me, exercise, but also spend time with friends and family.
00:01:12 Speaker 2
Because okay, for sure exercise is important for the mental and for the physical.
00:01:15 Speaker 2
But with my work life, you need to spend time with friends to make sure you socialize, have a social life and forget a bit daily life.
00:01:28 Speaker 1
Okay, that's nice.
00:01:30 Speaker 1
When was the last time that you exercised around in this neighborhood?
00:01:35 Speaker 2
Well, usually I go to the gym, but sometimes when it's good weather, especially around spring summer, I go to the parks, maybe to do some running.
00:01:45 Speaker 2
But one thing that is missing for sure is the machines in the parks, because typically I do gym.
00:01:52 Speaker 2
So yeah,
00:01:55 Speaker 2
You're limited to cardio by only going to the park, so some machines are missing for sure.
00:02:00 Speaker 1
Would you say that the parks in this neighborhood are a social place for elders to go, or is it mainly children that go there?
00:02:09 Speaker 2
Are some elders, sometimes also children.
00:02:13 Speaker 2
Funny enough, especially during winter, some children go out to the park and play with their parents or by themselves, but typically, yes, just people walking their dogs,
00:02:24 Speaker 2
But the parks do not have a lot of people in general.
00:02:27 Speaker 1
Okay, that's nice, thank you.
00:02:30 Speaker 1
Where do you go when you want to relax?
00:02:33 Speaker 1
Like some activities that you might do, maybe it might be walking for some others or.
00:02:40 Speaker 2
Yeah, I might go walk sometimes, especially after a long day.
00:02:46 Speaker 2
I stay at home as well, just relax a little bit or go to the center and I
00:02:53 Speaker 2
occasionally plan trips on the weekends.
00:02:56 Speaker 2
But yeah, for sure it's a mix, not one thing every time.

00:03:00 Speaker 1
All right.
00:03:03 Speaker 1
Another question, it's a bit more broad, but how do you feel about the traffic in the streets in this neighborhood?
00:03:09 Speaker 2
There's not a lot of traffic.
00:03:12 Speaker 2
It's okay, it's okay I think.
00:03:13 Speaker 2
Sometimes at night, maybe when people are going back home, it gets a bit busy, but for sure not a lot.
00:03:22 Speaker 1
Okay.
00:03:23 Speaker 1
How connected do you feel to the people in this neighborhood?
00:03:27 Speaker 1
Are you close to some people?
00:03:29 Speaker 2
Not really, not really.
00:03:32 Speaker 2
It feels a bit empty a lot of the time.
00:03:34 Speaker 2
As with the park, but for sure in the streets like where I live, it's not a lot of people outside.
00:03:40 Speaker 2
People don't say good morning, good evening.
00:03:44 Speaker 2
It feels a bit like strange, no?
00:03:48 Speaker 2
So no, I would not say.
00:03:49 Speaker 2
I know some people from around the neighborhood, but we are not close or anything like that.
00:03:54 Speaker 1
So for example, you wouldn't go for a coffee with them.
00:03:57 Speaker 2
No, I don't think so.
00:03:58 Speaker 2
It's a bit, I don't know them well enough to go for a coffee or relax together.
00:04:05 Speaker 2
This neighborhood feeling is, I think, lacking a bit.
00:04:08 Speaker 1
Okay, nice.
00:04:11 Speaker 1
Are there any clubs
00:04:13 Speaker 1
Or are you actually are you in any clubs, maybe societies, maybe part of the church in this neighborhood?
00:04:23 Speaker 2
And no, no, no, no part of any clubs.
00:04:27 Speaker 1
Okay.
00:04:30 Speaker 1
Just a few more questions until we wrap it up.
00:04:39 Speaker 1
What makes it easy or difficult for you to participate in neighborhood activities, clubs or associations?
00:04:48 Speaker 2
Well clubs I'm not sure that there are any so I don't really see.
00:04:54 Speaker 2
As I told you I go to the gym but I used to play tennis.
00:04:58 Speaker 2
I haven't heard of any club in the neighborhood or something like that.
00:05:01 Speaker 2
It's not something I would search for even.
00:05:04 Speaker 2
But
00:05:08 Speaker 2
I think, like I said before, the lack of, not hospitality, but openness from the neighbors makes this difficult to do.
00:05:17 Speaker 1
Okay, that's good to hear.
00:05:19 Speaker 1
Are there any places in this neighborhood which you might consider sketchy?
00:05:28 Speaker 2
Some alleyways, maybe, yes.
00:05:32 Speaker 2
At night, as I said, it's pretty empty.
00:05:37 Speaker 2
So
00:05:38 Speaker 2
yeah some places I if you walk to you will say what is this place you know but okay nothing in particular.
00:05:46 Speaker 1
All right that's good to hear okay just some closing questions now if you could change one thing about living here what would it be?
00:05:57 Speaker 2
Would be yeah the amount of people kind of but not not in that sense that the
00:06:08 Speaker 2
the people that go around, walk around, that you meet them, that they are open.
00:06:14 Speaker 2
Because it feels like sometimes I'm lacking some things that I was used to back in my country.
00:06:21 Speaker 2
It is a little bit foreign.
00:06:24 Speaker 2
I think openness would make the day life more bright, no?
00:06:27 Speaker 2
Meeting new people, saying hi, saying good evening.
00:06:31 Speaker 2
Of course I have my friends, but they are not in the neighborhood, so for me to go see them and socialize, I have to go far away.
00:06:37 Speaker 2
far away but kind of and yeah I think openness also maybe the infrastructure in the in the whole city so it doesn't feel so empty I think when if you invest in how the parks look some activities people would start going out more stuff like that yes.
00:06:58 Speaker 1
Okay all right so that was it thank you so much thank you thank you

Interview 2

00:00:00 Speaker 1
so how long have you been living here?
00:00:03 Speaker 2
Uh now it's about a year and a half I think for a year.
00:00:08 Speaker 1
Okay are you are you originally from here or are you an international student or?
00:00:13 Speaker 2
I am originally from Holland I'm living with a family member of mine instead of with my mom.
00:00:21 Speaker 1
All right okay nice thanks uh so can you like walk us through through a normal weekday here in uh the neighborhood like
00:00:29 Speaker 1
where where do you go stuff like that.
00:00:33 Speaker 2
Um well there's a few shops here down the road there's a supermarket and the kitas and stuff so and anything you need you can grab quite easily um and then work of course is also nearby here because there's a centrum uh the center sorry and
00:00:58 Speaker 2
And there's also, I'm not sure if you're aware, there's the Vigliotop, a few streets down.
00:01:05 Speaker 2
So it's like a library, but because less people go to a library, it's like a mini library.
00:01:11 Speaker 2
And it's also a place where you can study, so you can just sit there whenever you want.
00:01:16 Speaker 2
They give Dutch language lessons to internationals and immigrants.
00:01:24 Speaker 2
there's also things like salsa dance classes and soup kitchens so you can make soup with other people from the neighborhood and eat for free so we're starting some sort of tutoring lessons down there yeah and for the rest it's
00:01:48 Speaker 2
just normal.
00:01:48 Speaker 1
So you would say that that like social place there is positively affecting like well-being.
00:01:54 Speaker 2
Yeah.
00:01:54 Speaker 1
Right?
00:01:55 Speaker 1
Yeah.
00:01:55 Speaker 1
That's really good to hear.
00:01:58 Speaker 1
Okay, so this is like a general question, but what does like being healthy mean to you?
00:02:07 Speaker 2
More just like making conscious decisions and of course also
00:02:14 Speaker 2
watching what you what you eat and stuff.
00:02:16 Speaker 2
I can't really say that holding a monster, but yeah, just keeping an eye on things and a bit of balance as well.
00:02:25 Speaker 2
Not only eating.
00:02:27 Speaker 2
Everything filled with protein, but also just normal produce and.
00:02:35 Speaker 1
Another general question, maybe it's a bit more like personal about when was
00:02:39 Speaker 1
the last time that you maybe exercised or walked around the neighborhood.
00:02:44 Speaker 2
Um coincidentally that was this morning I haven't gone to the gym in quite a time but I did go this morning um and because there's a lot to do here I think it's also just natural to be cycling and walking around a lot because there's enough places to be.
00:03:27 Speaker 2
More like twice in the month.
00:03:29 Speaker 1
All right, okay, okay, okay.
00:03:31 Speaker 1
Just chill, yeah.
00:03:31 Speaker 1
All right, let's see.
00:03:36 Speaker 1
so when you want to relax and all do you like you you come out here in the park I guess yeah or I.
00:03:44 Speaker 2
Walk to the supermarket and grab myself a snack but then I'm still walking but just.
00:03:49 Speaker 1
Less so you leave the house and like walk a little bit when you want to relax after like studying and all right here uh another question regarding Parks uh
00:04:03 Speaker 1
Are there many of these type of parks around in the neighborhood or is it just this?
00:04:09 Speaker 2
Not that I know there's a playground a few streets down but that you can't call that a park because there's.
00:04:16 Speaker 1
No benches I guess.
00:04:17 Speaker 2
The seating is like towards the kids playground so it'd be a bit weird to sit there.
00:04:21 Speaker 1
Too noisy I guess.
00:04:23 Speaker 1
Is it?
00:04:23 Speaker 2
Yeah but it's also just a bit weird because you're just looking out and kids playing there's no trees or anything.
00:04:31 Speaker 1
So there's no like uh any sort of activities that you can do for example maybe like um let's say uh exercise like uh instruments.
00:04:41 Speaker 2
Oh well there is uh I'm not sure if that's in Dorven Akros or not it's um a few streets down there's like a basketball court okay so that's there as well.
00:04:53 Speaker 1
All right the one that behind the cemetery I think yeah yeah all right good
00:05:03 Speaker 1
also do you wish that there were more of like exercise instruments in the parks?
00:05:12 Speaker 2
Well I don't use those personally but I do see a lot of people using them so I do think that would be nice to have but I don't really care.
00:05:22 Speaker 1
Okay all right uh
00:05:30 Speaker 1
How connected do you feel to the people here around the neighborhood?
00:05:35 Speaker 2
They're surprisingly a lot more as in the regular village because they do have, like I said, the Bibiotope and they're really trying to get a neighborhood connection here.
00:05:47 Speaker 2
So there are plenty of people that I know in this region for the short time I've been living here and people do still seem to reach your street.
00:06:00 Speaker 1
So you would say that that's the main spot of

00:06:00 Speaker 1
So you would say that that's the main spot of like people gathering around?
00:06:06 Speaker 2
As far as I know, yeah, but also just people on the street also just talk to you and stuff.
00:06:14 Speaker 2
It's not as closed off as you'd think.
00:06:23 Speaker 1
So if you were to go out for a coffee with someone from the neighborhood,
00:06:29 Speaker 1
Would you would you be able to do that?
00:06:32 Speaker 1
For example, do you have like maybe friends or like family in the neighborhood that you could go for coffee?
00:06:40 Speaker 2
Yeah.
00:06:41 Speaker 1
Okay.
00:06:43 Speaker 1
That's good to hear.
00:06:48 Speaker 1
Also, there is people that you could ask favors from in the neighborhood, like excluding your family, I guess.
00:06:55 Speaker 2
Yeah, neighbors and stuff are also really helpful.
00:06:58 Speaker 2
If you ever need a tool or anything, that would just send it to you.
00:07:01 Speaker 1
Okay, beside the social club that you're in and the environment there, are you in any clubs or churches in the neighborhood?
00:07:14 Speaker 2
No, not the neighborhood.
00:07:15 Speaker 1
Okay.
00:07:18 Speaker 1
All right.
00:07:23 Speaker 1
Do you think there's anything making it difficult or
00:07:27 Speaker 1
like difficult in joining clubs here or facilities?
00:07:33 Speaker 2
Not really, I haven't really looked into it because my school's quite far away so I'd rather join something there than here.
00:07:39 Speaker 1
Fair enough.
00:07:43 Speaker 1
So another question now, it's a bit more...
00:07:45 Speaker 1
All right, so let's do it.
00:07:52 Speaker 1
Do you guys think there's any like sketchy places in the neighborhood?
00:07:57 Speaker 2
Well as I mentioned there's like a playground with a bench like facing it and sometimes it's more like sketchy people hang out there to watch the children and stuff and it's a bit weird or at night sometimes people sit there and leave stuff and in the park sometimes you find like little plastic bangies that you're not sure what was in there at first.
00:08:27 Speaker 1
All right so these are some closing questions so we can wrap this up because it's raining as well uh yeah sorry for that um what would be one thing that you could like maybe change in the neighborhood or like add yeah.
00:08:42 Speaker 2
Okay so this might seem stupid but as a there's a crossing um at the super I'm not sure if you know what it is but at the supermarket at the overtime all right and when the um
00:08:55 Speaker 2
How's it called?
00:08:55 Speaker 2
When the pedestrians get the green light to cross, the cars also get the green light to cross to go left so they would potentially just could go and, how's it called, drive over the pedestrians because they get the green light at the same time and usually a car stops because you don't want to kill a person for that but that's just stupid.
00:09:24 Speaker 1
In your opinion you think that's dangerous as well?
00:09:27 Speaker 2
Yeah because if there's someone who's come home or on their way home from a tiring day of work who says that they'll be awake enough to notice and actually stop on time.
00:09:40 Speaker 1
Okay uh anything else like regarding like maybe uh parts anything else that you would I mean you told us maybe some extra like uh exercise instruments yeah but besides that it seems.
00:09:52 Speaker 2
Like people use it and
00:09:54 Speaker 2
I know there's a lot of kids that come out to the basketball court in here as well, so that seems to be enough, but yeah.
00:10:02 Speaker 1
All right, thank you for everything.
00:10:04 Speaker 1
Thanks a lot.
00:10:05 Speaker 1
And for the rain as well.
00:10:06 Speaker 1
Sorry for keeping you up.
00:10:08 Speaker 2
No problem.
00:10:09 Speaker 1
Thank you guys, honestly.
00:10:10 Speaker 1
I'm good start with your studies.
00:10:13 Speaker 2
Thank you.

Raafi

Interview 1

00:00:01 Speaker 1
Hi, we are students from TUE doing a project about Duranockers Oost.
00:00:06 Speaker 1
We want to understand what it is like to live here and what potential problems residents experience.
00:00:11 Speaker 1
Would you have around 10 minutes for a short anonymous interview?
00:00:14 Speaker 1
You can skip any question or stop at any time.
00:00:17 Speaker 1
Is it okay if you take notes?
00:00:19 Speaker 2
Sure, no problem.
00:00:21 Speaker 1
How long have you lived in Duranockers?
00:00:25 Speaker 2
I have lived here for about two and a half years.
00:00:29 Speaker 1
Walk me through a normal weekday here.
00:00:32 Speaker 1
Where do you go and who do you see?
00:00:36 Speaker 2
Usually a daily thing that I do, I go to campus, maybe study some, and then perhaps go to the Albert Hein nearby and go for some groceries.
00:00:49 Speaker 1
How far away is the Albert Hein from your house?
00:00:53 Speaker 2
It's about 5 minutes walk or about like 3 minutes bike.
00:00:56 Speaker 2
It's pretty close.
00:00:57 Speaker 1
Nice.
00:00:59 Speaker 1
And what parts of the neighborhood affect well-being/health positively?
00:01:06 Speaker 2
They have some small areas where some greenery are and there are some parks nearby as well.
00:01:15 Speaker 2
But they're not as big as I hoped them to be.
00:01:20 Speaker 2
They could be a little bit bigger.
00:01:23 Speaker 1
And what does being healthy mean to you?
00:01:30 Speaker 2
I think being healthy is living a good lifestyle, taking care of your body as well as your mental.
00:01:41 Speaker 1
In that case, what parts of the neighborhood affect well-being slash health
00:01:46 Speaker 1
Wait, no, we already said that.
00:01:48 Speaker 1
How was the last time you walked, exercised, or did physical activity in your neighborhood?
00:01:56 Speaker 2
There's not many chances to do physical activity, but other than walking, yeah, I sometimes walk to the grocery store.
00:02:07 Speaker 2
That's about it.
00:02:09 Speaker 1
Now, what do you usually do outside here in the normal week apart from getting
00:02:15 Speaker 1
from A to B, which in your case is like from your house to out behind.
00:02:19 Speaker 1
Do you do anything else?
00:02:22 Speaker 2
Wait, what was the question?
00:02:23 Speaker 1
What do you usually do, actually do outside here in a normal week apart from getting from A to B, like from your house to out behind, for example?
00:02:36 Speaker 2
Apart from that.
00:02:37 Speaker 1
Yeah.
00:02:38 Speaker 2
Probably nothing.
00:02:39 Speaker 2
Like sometimes I have some
00:02:42 Speaker 2
some walks if I'm bored if I have some guests over and we have nothing to do inside my house maybe I'll go far around behind my house there's a small park next to the school sometimes I like to take a walk oh nice and.
00:03:06 Speaker 1
Okay, and when was the last time you stopped and stayed somewhere outside for more than a few minutes?
00:03:15 Speaker 2
Stopped in one point.
00:03:17 Speaker 1
For example, like you said, you like to go to a park or near your house.

Interview 1

00:03:23 Speaker 1
when's the last time you did that?
00:03:25 Speaker 2
A long time ago.
00:03:27 Speaker 2
Like, well, it's been warm recently and it's nicer to take walks outside other than
00:03:35 Speaker 2
being cooped up inside my room but I don't usually stop anywhere we usually just walk and then as the whole journey we don't stop anywhere just go for rounds okay and uh what about uh is there any like playgrounds as well in like the park that you were seeing yeah there's a
00:04:04 Speaker 2
There's a small like it is next to a school like a kindergarten or something and they have some playgrounds but.
00:04:13 Speaker 1
Have you been have you what about outdoor sport sport like gyms?
00:04:21 Speaker 2
I think if I recall correctly they have a basketball court next to the next to the playground but that's it a basketball slash slash football court.
00:04:32 Speaker 2
that you can use simultaneously.
00:04:34 Speaker 1
Oh, so you've never been there?
00:04:37 Speaker 2
I haven't used it, but I've walked past it several times.
00:04:40 Speaker 1
Oh.
00:04:42 Speaker 1
And how do you feel about the traffic on your street?
00:04:50 Speaker 2
Yeah, it sometimes gets pretty crowded during the rush hour, and sometimes there's also construction.
00:04:57 Speaker 2
There's been lately a lot of construction for the bike lanes.
00:05:01 Speaker 2
So traffic gets disrupted because of that right now, actually, there is construction on the bike lane on the right side.
00:05:07 Speaker 2
So sometimes I have to fight the convention and go the wrong way because the bike lanes are closed.
00:05:15 Speaker 1
And how connected do you feel to the people around you in your neighborhood?
00:05:24 Speaker 2
I have a pretty decent relationship with my neighbor.
00:05:30 Speaker 2
But other than that, I don't think I experience a lot of social interaction.
00:05:36 Speaker 2
But I think there is a pub right across the street from where I live and people can go there to spend some time, have a chat with the locals.
00:05:46 Speaker 2
But me personally, I never visit.
00:05:51 Speaker 1
And yeah, when do you normally meet people in the neighborhood and where?
00:06:02 Speaker 2
Most of the time it's when I go grocery shopping because I think that's where everybody does their groceries.
00:06:08 Speaker 2
I usually see my neighbors there, my housemates.
00:06:12 Speaker 1
And who do you usually see when you're out in your street?
00:06:18 Speaker 1
Do you know them by name?
00:06:20 Speaker 2
No, barely, other than my housemates and my neighbors.
00:06:23 Speaker 2
I don't know any of them by name.
00:06:25 Speaker 1
And if you wanted to sit down with someone for a coffee or chat, where would you go in your neighborhood?
00:06:33 Speaker 2
Oh, next to the Albert Hein, there is a, like there are a bunch of cafes, like Turkish, there's a Turkish, Turkish store and they have a cafe next to it.
00:06:47 Speaker 2
And there are some donor places where you can grab a calm snack.
00:06:52 Speaker 1
Alright, and.
00:06:56 Speaker 1
Are you part of any club, group, or sport teams?
00:07:01 Speaker 1
And what made you join us?
00:07:02 Speaker 1
What's still up to you?
00:07:05 Speaker 2
Like in the area?
00:07:06 Speaker 1
Yeah.
00:07:08 Speaker 2
No, not in the area.
00:07:09 Speaker 2
Like, wait, so TUE doesn't count, right?
00:07:14 Speaker 1
Are you a part of any sports team in TUE?
00:07:19 Speaker 2
Yeah, I am.
00:07:19 Speaker 2
I'm part of the badminton association, but that's not local.
00:07:23 Speaker 1
Okay.
00:07:25 Speaker 1
Yes, and which local facilities/activities do you use and how did it go in your neighborhood?

00:07:36 Speaker 2
Local what?
00:07:37 Speaker 2
Local facilities?
00:07:38 Speaker 2
Like what?
00:07:41 Speaker 1
Yeah, in your case, the basketball court that you were talking about?
00:07:46 Speaker 2
I think there is a basketball court, but it's owned by the school.
00:07:49 Speaker 1
Oh, I see.
00:07:51 Speaker 2
Yeah, so it's not like public.
00:07:53 Speaker 2
Okay.
00:07:53 Speaker 2
Yeah, it's privately owned and people who are in the school can use it.
00:07:58 Speaker 2
But I never use it.
00:08:00 Speaker 1
All right.
00:08:01 Speaker 1
And is it easy to be physically active in the neighborhood?
00:08:05 Speaker 1
For example, like walking around your neighborhood.
00:08:09 Speaker 2
Yeah, They have pretty big pavements so you can take good walks and there are a lot of greenery as well.
00:08:16 Speaker 2
So if it gets sunny, you can have the shade.
00:08:18 Speaker 1
All right.
00:08:19 Speaker 1
And are there places in the neighborhood you never visited because it was sketchy or bad overall?
00:08:30 Speaker 2
No, like it maybe doesn't have enough light sometimes in the night, but if you go there in the day, it's pretty okay.
00:08:42 Speaker 1
And
00:08:45 Speaker 1
if you could change one thing about living here what would it be?
00:08:50 Speaker 2
Change one thing about it I'm gonna have to think on that one hold on.
00:08:58 Speaker 1
No worries take your time.
00:09:04 Speaker 2
Probably more parks like bigger parks okay yeah if you could change like some water place or something water places water parks
00:09:14 Speaker 2
Yeah, not water parks, parks with a body of water in it, that you can just sit next to and then just chill.
00:09:22 Speaker 1
Like water fountains?
00:09:24 Speaker 2
No, like ponds, okay, Yeah, I see.
00:09:31 Speaker 1
And if you could change one thing in the neighborhood to improve residents' health and well-being, what will you change and why?
00:09:44 Speaker 2
Same answer as before.
00:09:45 Speaker 1
Yeah.
00:09:45 Speaker 1
All right.
00:09:47 Speaker 2
As the previous one.
00:09:48 Speaker 1
And is there anything else that you think might be interesting to mention about your neighborhood regarding health and happiness?
00:09:58 Speaker 2
Yeah, I actually do run into some like tweakers pretty often.
00:10:03 Speaker 2
Like there are some people who publicly use drugs and you can see them just walking around sometimes.
00:10:09 Speaker 2
Like it's the same people.
00:10:13 Speaker 2
the same three people that I see going around.
00:10:15 Speaker 2
And they've just, they either have been drinking or they're like limping, And this is like in the middle of the day.
00:10:23 Speaker 2
So that's just an interesting thing.
00:10:26 Speaker 1
And is there something you used to do in this neighborhood that you stopped doing?
00:10:33 Speaker 2
No, not really.
00:10:34 Speaker 1
Okay.
00:10:36 Speaker 1
And yeah, that's all.
00:10:39 Speaker 1
That's all the questions.
00:10:41 Speaker 1
Thank you very much.
00:10:42 Speaker 2
Alright, I'm happy to help.

Raafi

Interview 2

00:00:00 Speaker 1
started.
00:00:01 Speaker 1
Hi, we are students from TUE doing a project about Door Knockers Oost.
00:00:05 Speaker 1
We want to understand what it is like to live here and what potential problems residents experience when you have around 10 minutes for a short anonymous interview.
00:00:13 Speaker 1
You can skip any questions or stop at any time.
00:00:15 Speaker 1
Is it okay we take notes?
00:00:17 Speaker 2
Yes, it is.
00:00:18 Speaker 1
All right.
00:00:20 Speaker 1
So the first question would be, how long have you lived in Door Knockers?
00:00:24 Speaker 2
For about a year right now.
00:00:28 Speaker 1
And walk me through a normal weekday here.
00:00:31 Speaker 1
Where do you go?
00:00:31 Speaker 1
Who do you see?
00:00:35 Speaker 2
Okay.
00:00:38 Speaker 2
Wake up, do my groceries, go to the nearest Albert Hein, go to class, cycle to uni, cycle to the station, whenever I need to go to Toberg.
00:00:53 Speaker 2
Go, go back to
00:00:55 Speaker 2
The gym, closest gym that there is also cycling.
00:00:58 Speaker 1
Is it basic fits?
00:01:01 Speaker 2
SSC.
00:01:04 Speaker 1
All right.
00:01:05 Speaker 1
And what parts of the neighborhood affect well-being slash health positively?
00:01:11 Speaker 2
I think the nature.
00:01:12 Speaker 2
I really like the nature.
00:01:15 Speaker 2
It's also more quiet.
00:01:18 Speaker 2
So it's nice.
00:01:19 Speaker 1
And what does being healthy mean to you?
00:01:23 Speaker 2
Staying active, staying disciplined, eating healthy, eating good.
00:01:30 Speaker 1
And how was the last time you walked, exercised, or did physical activity?
00:01:36 Speaker 2
How was it or when was it?
00:01:39 Speaker 1
Yeah, how was it in the neighborhood when you walked around the neighborhood?
00:01:44 Speaker 2
Oh, it was really cool.
00:01:45 Speaker 2
Like, I go on runs around the neighborhood, so...
00:01:49 Speaker 1
And what do you actually do outside here in the north apart from, oh well, we can skip that part.
00:01:56 Speaker 1
And tell me about the last time you walked somewhere here instead of taking the bike or car.
00:02:03 Speaker 1
What was the route like when you were running around your neighborhood?
00:02:08 Speaker 2
Yeah, a lot of turns.
00:02:11 Speaker 2
Sometimes I have to cross the street and then look out for cars and bikes.
00:02:15 Speaker 2
But apart from that, it's relatively smooth.
00:02:16 Speaker 1
All right.
00:02:19 Speaker 1
And where do you go when you want to relax, spend time outdoors in your neighborhood?
00:02:26 Speaker 2
Just at the local park, just chill, sit at a bench and just listen to some music.
00:02:32 Speaker 1
And how are the parks there?
00:02:36 Speaker 2
It's nice.
00:02:37 Speaker 2
There's this really big one with like a soccer field that's nice to just sit in the evenings.
00:02:44 Speaker 1
Is it clean?
00:02:49 Speaker 2
I don't see too much rubbish on the field itself, but there are some that's on the street.
00:02:57 Speaker 1
Alright.
00:02:58 Speaker 1
And yeah, how do you feel about the traffic on your street?
00:03:05 Speaker 2
I'm in a very residential area, so I don't see much traffic.
00:03:09 Speaker 1
Okay.
00:03:10 Speaker 1
And how connected do you feel to the people around you here?
00:03:15 Speaker 2
In my neighborhood.
00:03:16 Speaker 1
Yeah.
00:03:18 Speaker 2
I know my neighbor really well.
00:03:20 Speaker 1
Oh, nice.
00:03:21 Speaker 2
I talk to nobody else from the area.
00:03:26 Speaker 1
Oh, okay.
00:03:27 Speaker 1

00:03:26 Speaker 1
Oh, okay.
00:03:27 Speaker 1
Because the next question would be, yeah, when do you, where, when do you normally meet people in the neighborhood?
00:03:33 Speaker 1
So, like your neighbor would just be, yeah, it's your neighbor.
00:03:38 Speaker 1
So, okay.
00:03:41 Speaker 1
And,
00:03:47 Speaker 1
If you wanted to sit down with someone for a coffee or chat in the neighborhood, where would you go?
00:03:55 Speaker 2
Just to the local bakery.
00:03:57 Speaker 2
They got good prices for sandwiches, coffee.
00:04:00 Speaker 2
So just.
00:04:03 Speaker 1
And is it near your house or do you have?
00:04:05 Speaker 2
Yeah, it's like a six minute walk, I'd say.
00:04:07 Speaker 2
I.
00:04:10 Speaker 1
See.
00:04:10 Speaker 1
And would you?
00:04:16 Speaker 1
Are you part of any club, group, church or sport teams and what made you join or what stopped you?
00:04:26 Speaker 2
Yeah, I'm in the Basketball Association.
00:04:29 Speaker 2
I love to play basketball.
00:04:30 Speaker 2
That's why I joined.
00:04:32 Speaker 2
I love to be around people who are similar minded, similar hobbies and interests.
00:04:37 Speaker 2
Also join a run club as well.
00:04:39 Speaker 2
Get to meet new people there as well.
00:04:42 Speaker 2
Yeah.
00:04:43 Speaker 1
And is that in the SSE?
00:04:45 Speaker 2
That is, yeah, SSC and the other one is like a student club, so to say.
00:04:53 Speaker 1
And what makes it easy or difficult to participate in neighborhood activities, clubs or associations?
00:05:05 Speaker 2
How open they are about new members and also all the information is online as well.
00:05:10 Speaker 2
So that's really.
00:05:12 Speaker 2
Reading times or connecting to like a secretary or something about information.
00:05:17 Speaker 2
It's pretty straightforward.
00:05:19 Speaker 1
And, oh, yeah, is it easy to be physically active in the neighborhood?
00:05:27 Speaker 2
If you take initiative, yeah, I think so.
00:05:30 Speaker 1
Like, for example, you said you went running around your neighborhood.
00:05:34 Speaker 1
Is it like easy to do that?
00:05:38 Speaker 2
Yeah, with good weather.
00:05:39 Speaker 1
Oh, okay.
00:05:40 Speaker 1
Fair.
00:05:41 Speaker 2
Depends on the weather.
00:05:43 Speaker 1
And are there places in the neighborhood you never visit?
00:05:46 Speaker 1
Like for example, it's sketchy or bad overall.
00:05:49 Speaker 1
And why is that and what would have to change for you to go there?
00:06:06 Speaker 2
I gotta pick on this one.
00:06:10 Speaker 1
Are there like any maybe sketchy alleyways out there?
00:06:22 Speaker 2
Not necessarily too sketchy, but I just wouldn't run at night.
00:06:24 Speaker 2
Let's put it that way.
00:06:26 Speaker 1
Okay.
00:06:27 Speaker 2
I wouldn't go on a run after like 9pm, 10pm, I'd say.
00:06:31 Speaker 1
All right.
00:06:33 Speaker 1
And if you could change one thing about living here, what would it be?
00:06:40 Speaker 2
The weather.
00:06:41 Speaker 1
Okay, so.
00:06:43 Speaker 2
Please.
00:06:45 Speaker 1
And if you could change one thing in the neighborhood to improve residents' health and well-being, what would you change and why?
00:07:01 Speaker 2
I would love to see like a pull-up bar or like some like outdoor gym facility thing, like a couple bars to just do some exercise on.
00:07:12 Speaker 2
That'd be cool.
00:07:13 Speaker 1
Oh,
00:07:14 Speaker 1
Actually, in the door lockers in the south part, there is an outdoor gym like that.
00:07:22 Speaker 1
Yeah.
00:07:25 Speaker 1
Yes, yes.
00:07:25 Speaker 1
It's right next to the cemetery.
00:07:32 Speaker 1

00:07:32 Speaker 1
Yeah, there's an outdoor gym over there.
00:07:35 Speaker 1
There's like a chest press machine.
00:07:41 Speaker 1
Yeah.
00:07:43 Speaker 2
Do you have the name of the park by any chance?
00:07:46 Speaker 1
I know it's, it just says park, but I know it's Friday.
00:07:49 Speaker 1
I found it, found it.
00:07:50 Speaker 1
Yeah.
00:07:50 Speaker 1
Oh, cool.
00:07:53 Speaker 1
Yes.
00:07:54 Speaker 1
And is there anything else that you might be interesting, that might be interesting to mention about your neighborhood regarding health and happiness?
00:08:05 Speaker 2
Nature is really cool.
00:08:06 Speaker 2
I love it.
00:08:07 Speaker 1
Okay.
00:08:11 Speaker 1
Is there something you used to do in this neighborhood that you stopped doing?
00:08:17 Speaker 2
No.
00:08:18 Speaker 1
All right.
00:08:20 Speaker 1
But now, yeah, that's all the questions.
00:08:23 Speaker 1
Thank you very much.
00:08:25 Speaker 1
Thank you

Pangeran

Interview 1

Speaker 1 (00:01)
All right. So yeah, as I mentioned, I'm just going to be giving an interview about like the life around this neighbourhood. So, yeah, how long have you lived in door knaker's west?
Speaker 1 (00:08)
Because these door knacks, Westwood, how long have you lived here?
Speaker 2 (00:12)
Now 10.
Speaker 1 (00:13)
10 years okay, and what's a normal weekday around you like? What are your activities that you do here usually?
Speaker 2 (00:20)
Just a little bit chilling with France. And out.
Speaker 1 (00:28)
Yeah, which had to bas.
Speaker 2 (00:30)
Here I am doing
Speaker 1 (00:31)
At each other's places in here on the swimming away, like where do you hang on here?
Speaker 2 (00:36)
Dance.
Speaker 1 (00:37)
Everywhere, okay, next alright. So what's part of this neighbourhood? You think affect your health positively like?
Speaker 1 (00:44)
Are there sports facilities? Are there places to, you know? Do recreational stuff over there?
Speaker 1 (00:50)
What's over there?
Speaker 2 (00:51)
That's a spooked place.
Speaker 1 (00:54)
Okay, that's pretty good, our door is or that's nice. What does being healthy mean to you? Does it mean eating?
Speaker 1 (01:01)
Well, does it mean moving? Well, does it mean having good social
Speaker 2 (01:05)
Please.
Speaker 1 (01:07)
Surf.
Speaker 2 (01:08)
Spotify, sport, 2 active and su. Put in Danish, yeah.
Speaker 1 (01:16)
That makes a lot of sense. All right. So how often do you do these exercises walks, physical activities?
Speaker 1 (01:22)
I assume a lot because you're talking about a lot of these different things, right?
Speaker 2 (01:26)
I'm going to do this everything.
Speaker 1 (01:28)
Every day, okay, that's really, really good. So do you usually walk here, or do you use the bike car?
Speaker 2 (01:34)
I do something to go with the bike, something I go running.
Speaker 1 (01:41)
All right, and are there good places here to go to when you want to relax outdoors? For example, relax like chill outside outdoors. Y.
Speaker 2 (01:50)
There.
Speaker 1 (01:51)
Every single place everywhere every day. Okay, what do you wish this place had more of in terms of green spaces like parks or anything? Do you think there's already enough?
Speaker 2 (02:02)
A better, soon.
Speaker 1 (02:03)
Also, football field. Okay?
Speaker 2 (02:05)
The because death is a thunderfield. Yeah, with stone oh, small golds stone good.
Speaker 1 (02:12)
So if you want to play football, you have to go outside, right?
Speaker 2 (02:15)
I mean, if this sounds like it's stone.
Speaker 1 (02:21)
Okay.
Speaker 2 (02:21)
You go to mix good, I actually. Greenfields, gasfield and Yeah, think of gold.
Speaker 1 (02:31)
Okay. No, that's great. Thank you very much.
Speaker 1 (02:34)
Now we're moving on a bit to the streets themselves, so is there a lot of traffic? Sometimes cars issues, or is it fine?
Speaker 2 (02:42)
A little bit sometimes
Speaker 1 (02:43)
Sometimes, okay, I'm now I'm talking about your social life. I mean, we talked about it a little bit, because you said you had friends, but like, how connected are you with the community here? If yeah.
Speaker 2 (02:55)

That he connected here you connect, everyone knows me.
Speaker 1 (02:58)
When hose you okay, is that a good thing or a bad thing vote? I get you worries. All right, so how like you do plan to meet up with people in the neighbourhood?
Speaker 1 (03:09)
Or do you just walk out and you see people Is it planned? Or is it random? Like you go to the supermarket?
Speaker 1 (03:15)
You see, people both, okay, okay, if you wanted to sit down with a few friends for like to drink a coffee, where would you go? In this neighbourhood. Donald sure ah yeah, the big street over there.
Speaker 1 (03:34)
Okay. Okay. All right.
Speaker 1 (03:35)
Is there a specific cafe that you like to go or just the random one okay, do you have? So let's say you need to pick up a heavy box like a favour, you know, let's say you need it, a small task, like maybe your bike tyre broke or something, and you need it.
Speaker 2 (03:52)
I think it's AS
Speaker 1 (03:53)
Let's say you had a favourite that you wanted someone to help you with. So you need it to lift something heavy or to fix your bicycle, or you know, a small task, do you have people? You could immediately call to help, or do you just do it by yourself?
Speaker 2 (04:06)
Everyone grew up on number former, I got call them
Speaker 1 (04:10)
Okay, ok.
Speaker 2 (04:11)
Because they help me idea, I help you him. Yeah, this that day, and they help.
Speaker 1 (04:16)
Okay, no, that's really good. You sense, exactly. That's how it is so in terms of like facilities in general, so are you part of any clubs groups, association sports team church, like are you a part of PSV youth team or supporting team support?
Speaker 1 (04:34)
Yeah, like what? Because I mean, like, oh no, no, as in like, for example, association, you know, like
Speaker 2 (04:42)
Association, yeah, yeah.
Speaker 1 (04:44)
Like a group, oh yeah. Pace fee is be okay. But for example, like there are sometimes running clubs or like associations, like a group of people that do similar stuff.
Speaker 1 (04:58)
I thought ice reported the Athletics association made football football. You're part of football association. So okay, okay, all right, and you play because you're interested in football like you like play football right?
Speaker 1 (05:09)
Yeah, I love it. Okay, let's see. Are you aware of other associations or groups in this neighbourhood, that do other things?
Speaker 1 (05:22)
Or not, like, do you just play football?
Speaker 2 (05:26)
They say they are a gang, but it's not a gang. Oh, big cook.
Speaker 1 (05:31)
Friends like young people like our ages.
Speaker 2 (05:34)
Carare, then, dear days they have deaku, but dear
Speaker 1 (05:38)
Okay. Okay, all right now, that's good to know. And okay, last few questions.
Speaker 1 (05:43)
I think. So are there any places in this neighbourhood that are not good like that? You don't want to visit, because there's people there that you don't like, or is this place a good neighbourhood, all everywhere?
Speaker 2 (05:55)
Everywhere you don't like it because it's scary. They hit in this neighbourhood, kidnap kidnap, ok?
Speaker 1 (06:04)
Green years ago, holy melt.
Speaker 2 (06:07)
Was that the doubt got davo I Scott's double? Oh, because then that's ready, that reason I got the not everybody, but almost every day I has a knife knife, said me.
Speaker 1 (06:22)
Okay, some difference, okay, okay, okay, so
Speaker 2 (06:27)
Oh, again, that's me know, because it's home.
Speaker 1 (06:30)

Um, just last few questions, if you were the mayor of eindoven, so you were the leader of it. Why do you change about this neighbourhood?
Speaker 2 (06:40)
Letting because are only the footfield.
Speaker 1 (06:43)
Very naughty, they have to go okay, nor worries.
Speaker 2 (06:47)
Yeah We've watched Olympic coming on. Okay. Surely government, a slapper.
Speaker 2 (07:03)
A good Script. Yeah Help by ladder. Yeah Yeah Yeah Yeah Okay.
Speaker 2 (07:29)
Yeah, it's good, yeah.
Speaker 1 (07:35)
Just like that, oh nories all right, we're almost finished so Is there so the specific point that I want to interview people about in general is health? Well-being like, you know, physical activity, and all of that, is there anything you want to add about it here that, you know, for example, are people here, active, everybody or people, your passive, do the
Speaker 2 (07:59)
Expertly, active, I can tell them girls.
Speaker 1 (08:04)
It's their choice. Yeah, okay, okay, okay. And on is there something that you used to do a lot here that you don't do anymore?
Speaker 2 (08:14)
No, no, no I do.
Speaker 1 (08:16)
You do everything, and it's all the same from before, basically what you do
Speaker 2 (08:20)
Are you every single step 4? So even as before, because I don't skipped anybody
Speaker 1 (08:26)
Hey, okay. Now I will have to interview. I think 2 more people after this, do you have any recommendations, or do you think I could just walk around and ask random people just like I did to?
Speaker 2 (08:37)
Yeah, it's but I don't know, I don't know if the egglicy okay.
Speaker 1 (08:44)
No okay, ok.
Speaker 2 (08:46)
On that, because some people was except the autonomy
Speaker 1 (08:50)
Book from yach, yeah.
Speaker 2 (08:51)
Uh, I see. I see, sometimes people less time made over time. Okay, touch me, oh, wow times all with me.
Speaker 2 (09:02)
Okay, grab a knife, yeah, and then again run away.
Speaker 1 (09:06)
Well, okay, and alright. Well, it's a risk I have to take. Was this at night or this time, like, what time in the day was it dark outside or was there still blue sk?
Speaker 2 (09:16)
I have the it down before it had night and
Speaker 1 (09:23)
So medic, wow, okay, but that concludes this interview. Thank you very very much asking my questions. I hope you have a good day.
Speaker 1 (09:31)
All right, government, okay.

Interview 2/3

Speaker 1 (00:00)
All right, so yeah, I'm just walking route briefly. How long have you both lived in this neighbourho?
Speaker 2 (00:06)
My alive, Trump.
Speaker 1 (00:08)
And what about you?
Speaker 3 (00:11)
6.
Speaker 1 (00:12)
Overwhile, that's quite a long time, and what is a normal week day in this neighbourhood? So where do you go? What do you do?
Speaker 1 (00:18)
Who do you see?
Speaker 3 (00:19)
Um, I'm only see her.
Speaker 1 (00:21)
Okay, like I'm trying, okay, all right, um. Sorry, you could you elaborate on that, or is it just nothing else other than that? No, not really okay.
Speaker 1 (00:34)
Now I'm going to be speaking a bit about like the topics of health and well-being in general. So what parts of this neighbourhood would you say affect your health and well-being positively? You could interpret that anyway, you could
Speaker 2 (00:47)
You spoke for the antimmith, humanity, energy
Speaker 3 (00:50)
Oh And I think our sport bars
Speaker 1 (00:53)
Oh, okay, and do use it often or
Speaker 2 (00:57)
Yeah, we walked there like almost every
Speaker 1 (01:00)
Oh, okay, and now this is a bit of a subjective question, but what does being healthy mean to both of you?
Speaker 3 (01:08)
Yeah, mostly just eating help you.
Speaker 1 (01:12)
English friends. Moving in active and all of that also would like having a healthy social life. Apply here too or is that something you don't think about much?
Speaker 2 (01:24)
I personally don't really think about message, ok?
Speaker 1 (01:27)
That's totally fair now. When was the last time you both had a physical activity here or exercise in this neighbourhood?
Speaker 3 (01:37)
Um. Rapid, it's like a week.
Speaker 1 (01:40)
A week ago okay, and what do you usually do here in a normal week? Aside from going from location a to location B do you hang out here with other people, or do you stay outside of this neighbourhood often?
Speaker 3 (01:55)
Well, we mostly stay in the neighbourhood, okay? Challenging.
Speaker 2 (02:02)
Yeah, we walk around like basically every
Speaker 1 (02:05)
All okay, but in the neighbourhood, you walk right. Okay, okay, okay, and I'm assuming then you don't use the car that much right, you either walk or you bike wherever you need to go outside. Okay, yeah, now we're going to go on the topic of green spaces and public spaces so where do you want to go, if you want to relax.
Speaker 1 (02:23)
Outdoors.
Speaker 2 (02:24)
There's a park nearby, my home. Okay, like a lot of nature.
Speaker 1 (02:27)
Oh, okay. Okay. That's really good, and what sort of activities do you do there?
Speaker 1 (02:32)
Do you also just walk around and maybe sit down, have a bit of a picnic food or what?
Speaker 2 (02:37)
We just sit down and pop.
Speaker 1 (02:39)
Very understanding, and how do you feel about the traffic industry? Like are there a lot of cars you that drive up above the speed limit, or they allowed sometimes, or is it normal? Just what you'd expect?
Speaker 3 (02:52)
I'm
Speaker 2 (02:53)
Yeah
Speaker 3 (02:55)
There are a lots of incidents nearby. But. Yeah, it's always really busy during like dinner and
Speaker 1 (03:07)
Dinner, okay, okay, well, fair enough. Now we're going to talk about the social well-being of the whole neighbourhood. So how connected are you with the people here?
Speaker 1 (03:16)
Because you said you have lived here your whole life, so I assume you know a lot of people in the snapboard or not, yeah.
Speaker 2 (03:22)

They're pretty nice and you can ask them
Speaker 1 (03:24)
Oh, okay, what about you?
Speaker 3 (03:26)
Um.
Speaker 1 (03:29)
Where and when do you normally meet people? Do you plant it, or do you just walk outside? You see somebody recognise, and you talk to them.
Speaker 3 (03:37)
Oh, mostly I'm mostly planet, she's planet.
Speaker 1 (03:43)
Commission, okay, fair enough, and who do you usually see when you're in the street like? Do sometimes no people by name or Like, do you just see people? Their faces are familiar, but you don't know their names.
Speaker 3 (03:58)
I'm also super people a lot. Oh, I don't order name, okay.
Speaker 2 (04:04)
I do know their names.
Speaker 1 (04:06)
Okay, but that makes sense, because you've lived here your own entire life. Right? So okay, next, so let's say you want it, I mean, because you to our best friends, let's say you guys wanted to sit down somewhere to have a coffee.
Speaker 1 (04:17)
Where would you go to?
Speaker 3 (04:19)
Pound, we mostly don't bring coffe.
Speaker 1 (04:21)
Wondering coffee, but like tea or anything else, or do you just want to sit outside? Like in the park, we're mostly the top house, okay? And on, I think you answered this question a little bit, but just so I get it no, so if you need it a small favour, like to lift something heavy or to fix your bicycle or some random stuff like that.
Speaker 1 (04:39)
Do you know where is? Do you have anybody that you could ask for a favour? Yes, my neighbours, your neighbours, okay, that's really good.
Speaker 1 (04:45)
Now we're going to be talking about facilities and support in general. So are both of you, part of any club group association, sports team or religious organisation or not? Really okay, and are there any facilities like that in this neighbourhood, that you know, of Not that I know interesting, okay, small attention, that's not related to this, but I actually got an interview 10 minutes ago from some random guy he has like this P.
Speaker 1 (05:13)
SV shirt, you might actually know him because apparently, like everybody knows him. He says that there's like an issue, sometimes with young people in A. Gang, or like some sort of thing, have you heard of that also
Speaker 3 (05:24)
We're, there are mostly a lot of kids around on febikes. Okay, sometimes Close.
Speaker 1 (05:34)
Okay, that's unfortunate to hear. All right, it's interesting, though about the no facilities and associations here now. Do you think that makes it difficult to participate in neighbourhood activities like because you know people, but do you actually do activities with these people or not at all, okay?
Speaker 1 (05:52)
Now I assumed that okay, is it easy to be physically active in this neighbourhood? I would assume, yes, because you have mentioned that this green spaces over there. But yeah, like, is there any other space?
Speaker 1 (06:02)
Do you think that people follow that or no?
Speaker 2 (06:05)
Yeah
Speaker 3 (06:07)
Yeah
Speaker 1 (06:09)
Okay, okay, oh, could you elaborate on that a little bit or
Speaker 2 (06:12)
There's a lot of parts and stuff that you can walk around. Okay, like playgrounds like that.
Speaker 1 (06:18)
Right, yeah. Of course, and are there any places in this neighbourhood that you would never visit? Because it's sketchy or bad, and why is that?
Speaker 1 (06:28)
The case?

Speaker 2 (06:30)
Well, at night I don't go to that, we hate up canal.
Speaker 1 (06:35)
I was like near the canal over there.
Speaker 2 (06:38)
And I just, we don't go there, okay.
Speaker 1 (06:40)
Because incidents, there, people that are drunk.
Speaker 2 (06:44)
No.
Speaker 3 (06:45)
We had our incident that we like. Uh, then, like, there's a few guys in a car and kept talking at us.
Speaker 1 (06:52)
I'm sorry.
Speaker 2 (06:53)
That also, there's people at the round there.
Speaker 1 (06:55)
Poly, that's crazy, alright, perfect. Now, just a few closing questions, if you could change one thing about living here, what would it be?
Speaker 3 (07:06)
We had a Thursday, snow mean people and stuff.
Speaker 1 (07:11)
Okay, fair enough, and if there was one thing you could do to improve people, citizens well-being and health, what would you change?
Speaker 2 (07:21)
Um, oh, you see the sun stock. I could probably just like not have that on the street Y.
Speaker 1 (07:29)
Yeah, you know, on the topic, like I was near, I think a bench over there and there was a lot of cigarettes. So I see what you mean, all right, and yeah, is there anything that you used to do in this neighbourhood, that you stop doing, or has your life here? Basically been the exact same in terms of what you've
Speaker 2 (07:48)
I used to go a little playground a bit further back, but I don't go there anymore. Since somebody started custing at me and spin.
Speaker 1 (07:55)
Oh, that's unfortunate, but that's helpful. Thank you very much. And now my last question is like my strategy right now is just to walk around the random streets and interview random people, is there anyone in particular that you think, I should, you know, try to interview or there people that you think that would be interested, or are there hostile people aggressive people and need to watch up for that.
Speaker 3 (08:14)
Oh, that aren't mostly some aggressive people in the neighbourhood, but I don't know exactly what I live.
Speaker 1 (08:21)
Cook, yeah, I mean, I'll just stick the risk. I suppose, oh, but yeah, perfect, that concludes this interview. Thank you very, very much for information, and hopefully you have a good day, perfect.

Interview 4

Speaker 1 (00:00)
So as I mentioned earlier, I'm going to be given a brief interview around 10 minutes about what life is here. I've already interviewed 3 other people, but they were mostly young people like my age. So I think to have a bit more of the range of different demographics, I'd also be good, so you live in doornakers, west, right like here, right now.
Speaker 2 (00:16)
So I live in lacropa, I live in the euroside of the world.
Speaker 1 (00:20)
Alkin, oh I think that's Mike, I just did, she's been, but how long have you lived here? The
Speaker 2 (00:27)
I think I moved here. So ex 7.
Speaker 1 (00:32)
Oh, that's like 19 years, then, all around 18 years. Well, okay, so what is the normal weekday here, like? Where do you usually go?
Speaker 1 (00:39)
And who do you usually see?
Speaker 2 (00:42)
I go to my work, I go to the gym.
Speaker 1 (00:47)
Hey.
Speaker 2 (00:48)
Go to my exer partner who my kids.
Speaker 1 (00:51)
Okay.
Speaker 2 (00:53)
There are a lot of friends or colleagues. I think I have a quite nice social life.
Speaker 1 (01:00)
Oh, that's really, really good. Yeah, now. To the most you can answer what part of this neighbourhood affects your wealth, your well-being, or your health positives, bow, you said.
Speaker 1 (01:13)
Facilities, perhaps, or do you do it outside of the snowboard?
Speaker 2 (01:16)
Yeah, I don't like the facilities on this side. Orienter.
Speaker 1 (01:23)
Yeah
Speaker 2 (01:24)
Okay, all.
Speaker 1 (01:26)
Yeah, the action and all of them
Speaker 2 (01:30)
I go to the gym here and at Thomas.
Speaker 1 (01:33)
Knock it.
Speaker 2 (01:34)
Of course, sports and also, if you go a little bit furnal, I think, like the thirt street on the left side, you go, there's For artists, there are I'll tell you.
Speaker 1 (01:49)
What's that?
Speaker 2 (01:51)
Yeah, where artist?
Speaker 1 (01:53)
Okay, black a studio okay, ok?
Speaker 2 (01:56)
There's also exposition place.
Speaker 1 (02:00)
Oh, I don't know that interesting, because I've interviewed other people. They didn't mention this now. What does being healthy mean to you?
Speaker 1 (02:07)
Because I think it means a lot of different things to different people, but there's usually a correct answer in terms of people.
Speaker 2 (02:15)
So do sports it to and
Speaker 1 (02:20)
Active.
Speaker 2 (02:21)
Tip and the 2 meet
Speaker 1 (02:23)
E12 of course.
Speaker 2 (02:26)
Also social and network. If you do have a social network, then I think for your mind, that's really, it's necessary to
Speaker 1 (02:34)
Yeah, I could completely agree with you. I think.
Speaker 2 (02:38)
So likely the environment. Yeah, and this side, I don't know some people's day true, like the garbage, everywhere. I mean, it's like also cultural.
Speaker 1 (02:48)
Okay, yeah, I remember I've poked by AI walked by a bench and there was like cigarettes everywhere. And I wasn't cleaning all of it. So when was the last time you did a physical activity or exercise or something in this neighbourhood?
Speaker 1 (03:02)
For last time.
Speaker 2 (03:04)
Last week I went to, yeah, I walk here and I go back bike here.
Speaker 1 (03:08)
Okay, that's really good, and what do you usually do here in a normal week? Aside from going from a different location to another different location, you already talked about.
Speaker 2 (03:19)
Who's the like to art like exposition? Okay, nice art, the gym, okay.
Speaker 1 (03:27)

All right, that's great. So in terms of the health, well-being and physical activity questions, we have good answers. Now we're going to be talking a bit about something you mentioned that wasn't positive, which is the area, the green space, the public space.
Speaker 1 (03:39)
So where do you want to go, if you want to relax or spend time outdoors?
Speaker 2 (03:44)
I have A
Speaker 1 (03:45)
A garden have a garden, okay?
Speaker 2 (03:47)
Countable, oh, the way to my vegetables and some fruits, wow, okay, garage, we are also here, there are a lot of londons. School next next to dough, then you have Yeah, I got if I'm just going through help my garden this nearby. Okay?
Speaker 1 (04:09)
Okay, all right.
Speaker 2 (04:11)
Oh, go to the forest in the city. The park, but not yeah, here.
Speaker 1 (04:17)
I could imagine I could imagine so because of that, what do you wish there was more of here in the neighbourhood, because if you think it's a bit lacking, what would you add?
Speaker 2 (04:27)
Mark, but.
Speaker 1 (04:29)
Like a bigger one.
Speaker 2 (04:30)
Bigger one yeah, I would like to have my own botanical garden. That's my dream for over 10 years and I would like to have it here, but I don't know it's possible.
Speaker 1 (04:40)
Of course, of course, interesting, I mean, that's a really interesting answer. I think the other answer that someone gave was, he likes to play football. But the football field is really small.
Speaker 1 (04:49)
So he wants a bigger one to so, yeah, more green spaces. So now this is another question that I thought was a bit interesting to ask, how do you feel about the traffic near Your Place near the Street near the Neighbourhood?
Speaker 2 (05:01)
Isn't go? 2425 and the Roger, this road is especially. It's like terrible.
Speaker 2 (05:10)
I thought they would fix it like in August they would start to Start here to make it a new street. I think. I think.
Speaker 2 (05:26)
People drive to Too Fast and Also I Know Like you cannot drive in here, but people do with, you know, so this fat blash, I really both that, yeah, I really hit sound.
Speaker 1 (05:42)
We're not going
Speaker 2 (05:43)
Trook, bike, customer teacher and taltova.
Speaker 1 (05:46)
Like the international school there or something else
Speaker 2 (05:49)
Otto, Yan also in the international school is Olympic. Okay, so, but I'm the teacher and art for regular Ed.
Speaker 1 (05:58)
Okay, yeah, the people I've interviewed said the same stuff too many, you know, fast cores and fat bikes. So, yeah, interesting. Now we're talking about the social well-being in this area, which you alluded to earlier, which you said was good.
Speaker 1 (06:12)
So how connected do you feel to the people around here? In general?
Speaker 2 (06:18)
A few connected to, there's also gap, and I think that's also Huh, post for all, but it's like Social and yeah, I'm social person. So for me, it doesn't matter away from Yeah, you have your own standards like my parents. They were really.
Speaker 1 (06:47)
Strict.
Speaker 2 (06:49)
My quarter was, yeah, you couldn't show a garbage or you have to obey the rules, and here I think it's yeah, I don't know.
Speaker 1 (07:00)
2, would you say, though that the fact that this place is not super clean, contributes to any negative aspect like, do you think it makes you a lot like this place as much and other people?
Speaker 2 (07:14)
Behave the behaviour doesn't matter way from if you're from Turkey or you're from the Netherlands, it's how your parents ra.
Speaker 1 (07:23)

Ediquette and all of them
Speaker 2 (07:25)
Okay, I think there's a gap and There are a lot of things in antova, where you can talk about eintofa or what you want for Anto, for the future, but then they're like only well-educated. Yeah, what people old people and this is really a mixed neighbourhood, so that's also
Speaker 1 (07:52)
Like an, I don't know enough representation or
Speaker 2 (07:54)
Anything but some of the people they don't know, and they don't care, but it's so pity, I
Speaker 1 (08:02)
By the way, yeah, these are interesting points, because all the people have interviewed so far where younger my age so they didn't talk about this stuff, but it's nice that you're talking about this, because this is information that I didn't previously have. So yeah, thank you for that. Now in terms of the people themselves, so when you meet people in this neighbourhood, is it like you plan to meet them, or do you just walk by your bike by?
Speaker 1 (08:23)
And then you see somebody you recognise, and you say hi to me?
Speaker 2 (08:26)
Also, people I know
Speaker 1 (08:28)
You know.
Speaker 2 (08:30)
Like, yeah, the 4 of my kids, you live Treat, okay, I know a lot of people there because we have a good we can Top with each other. We have a good relationship. Okay, but also the neighbours there friendly.
Speaker 2 (08:47)
And also I'm always friendly. So I think if you're open, most people are also open. Okay, if I walk here and people are sitting outside, I will always say hello.
Speaker 1 (08:58)
All right, yeah, that's good, that's
Speaker 2 (08:59)
Yeah, and most of the people do the same, okay?
Speaker 1 (09:04)
If you wanted to sit down with somebody here for a coffee or a chat, where would you go? Here in this neighbourhood, if you had to
Speaker 2 (09:12)
Yeah, I'm not like, oh.
Speaker 1 (09:14)
Alright, okay.
Speaker 2 (09:16)
No, I don't think there's like Yeah, there's a social part of you know, it's not a social, but I think it's from the documentum, okay? I don't know. I would go to the bus fan, but I don't know.
Speaker 2 (09:39)
I think that's also the next small neighbourhood is all it's all Tom of that, so This sector.
Speaker 1 (09:50)
Okay, yeah, it's like includes, like puffy in the north and you have the bus.
Speaker 2 (09:55)
Yeah, okay, I will go.
Speaker 1 (09:57)
Okay, interesting.
Speaker 2 (09:58)
Here, because there
Speaker 1 (10:00)
I don't know. Yeah, I know
Speaker 2 (10:01)
Oh, there's my Turkey spa. They're all old man. I would not go there.
Speaker 2 (10:07)
Okay, and not go, it would be strange for me.
Speaker 1 (10:11)
Of course, interesting. Yeah, just also a bit of a side note, just sites up in these questions so like I used to live in lombook pad which is in tofca just over there, you know, the student housing I moved away a few months ago but like, and now I live closer to the centre, a bit north of it, but yeah, like I've biked around this area in that area. A little bit like I've looked at this place.
Speaker 1 (10:30)
I also don't really see that many places to do anything, right, because like if you cross the street, okay, there's, you know, the ALBERT Hein and a bunch of other shops, the market over there, and then the north, there is a few more stuff over there too. But here there's actually not really that much. I say, so fair enough, I see that.
Speaker 1 (10:46)
But then, for example, like, if you had a small favour, like, let's say you need it to Lyft a heavy box or to fix your bicycle, you do have people you that can help you, right? Home right now, we're going now into a facilities. Although I already expect the answer to be not very much, but are you part of any club group sports team, association, religious organisation?
Speaker 1 (11:09)
And if you are, is it in this neighbourhood, or is it outside like base?

Speaker 2 (11:18)
I go to the gym. That's here, I think, yeah, okay, and then my yeah, I knew it's like a vegetable garden, but a lot of people have their own garden. I'm also part of that.
Speaker 2 (11:31)
But in held hope. And I do a lot of things in my neighbourhood, for the people of I do a lot, I clean the The pray grounds, a little page or I'm social over there also with the kids and everything. Okay, but that's no, I'm not religious or I don't like to be.
Speaker 2 (11:54)
I want to be part of a group, but I don't want to be like stuck in group because it's more like water.
Speaker 1 (12:03)
Hmm, so you don't want like any superstrum commitments, you just want to
Speaker 2 (12:06)
And I'll do a lot of things, and I cannot make it decision, but everything is important. Okay, yeah.
Speaker 1 (12:13)
Now you mentioned that you go to the gym here. Is there any other facility or activities set or group that you do here, and how is it usually?
Speaker 2 (12:22)
No, I want to go. There's like Stots will be sent them city hobby centre.
Speaker 1 (12:31)
Haha, yeah, I walked past it, yeah.
Speaker 2 (12:33)
Okay, I would like to go down, but then I have to be 55 or I don't have to. Then, I have to leave my job and I have to be real, but I think that's a really great place, and I would like to have that for people of a younger
Speaker 1 (12:50)
Okay, but oh, so could you tell me a little bit about that? Because I think I walked past it, what stuff do they do there?
Speaker 2 (12:56)
And this, like a wood Neck, practise. So it can work with woods, make like boxes for the
Speaker 1 (13:06)
Birds, ah, yeah.
Speaker 2 (13:09)
Saint Blass, okay, okay, the old people. The old people can go there if you are retired. I would like to go there.
Speaker 1 (13:24)
Okay, that makes sense, though, that it wasn't mentioned earlier because I spoke to that like really young people, so they didn't mention that.
Speaker 2 (13:30)
But I think even a lot of people were older than me, they don't know.
Speaker 1 (13:35)
Hmm, oh wow, okay.
Speaker 2 (13:37)
It's not if you're because I'm working at a school airliner, I make paintings and artist, so that's why I know. Okay, okay, and I think there's also here, this social parts for close and everything my sister and no, she helps there with her mom, she's from Ukraine. So my system know she is here for I think, 15 years before the war that her mom and her kniece came afterwards and they they do their volunteers, I think, on Saturday.
Speaker 2 (14:16)
So that's that's really good thing for the neighbourhood. I think. But there were a lot of here's the artwork there.
Speaker 2 (14:25)
A lot of people are not happy here. People live here. It's like a cultural thing, and they see like make people.
Speaker 2 (14:34)
Oh yeah, in the painting or the artist she didn't It was not.
Speaker 1 (14:42)
Anticipated, yeah, okay, okay, just a small thing. You said like there's a second hand shot.
Speaker 2 (14:50)
Yeah, something like that, so I don't know who I think it's open on Saturday, okay?
Speaker 1 (14:57)
I actually might check it out for myself interesting, but then, so Then, from what I understand it feels like, not very many people know about the things that are going on in here. Do you think that makes it really difficult for people to participate in neighbourhood activities?
Speaker 2 (15:16)

I don't know, but there are more things coming on my side of the road. I don't know, because perhaps they have like a people where things are Standing like if you go, you can have a coffee, I think there the people can have a coffee over there. Yeah, that's a school and there's also a part of the humanta, but I don't know, because I don't live here.
Speaker 1 (15:44)
Any other side, okay?
Speaker 2 (15:46)
But yeah, I don't know if people are wanted to have those facilities. Okay, so also you can, some people, they just want to be home at home and some people want to go out, so it's also if I don't know if they need it if they want to do things like that. Okay, there's yeah, and I think the playground is the most social part.
Speaker 2 (16:14)
Now there's a opposite field, they call it a yose of speel time. Okay, it's the call as Grandpa playground. It's over there and a lot of people in all the kids have been there.
Speaker 1 (16:28)
What is it the one with all of the playground stuff with like the slide and all of that, okay, I
Speaker 2 (16:32)
Oh, I guess. I think they're still main the hard
Speaker 1 (16:39)
Okay.
Speaker 2 (16:40)
Because everybody knows their place, they know each other from there or the kids and their parents ok.
Speaker 1 (16:47)
I cracked me in firm wrong. Isn't that the place that closes at 5 PM every day or yeah, okay.
Speaker 2 (16:52)
Oh, yeah, until I think October to close. And then in April it will be open because in
Speaker 1 (16:59)
Of course. Yeah, yeah, all right. Well so the details I don't know that's good, because when I interviewed other people, they tended to give a bit more shorter answer are there any places in this neighbourhood that you would never visit, like because there's people there that are a bit weird or it's dirty and why is that.
Speaker 2 (17:18)
I would never go to all the Barbasheps, because I'm kind of a woman and a lot of I don't know if it's all Uh. Yeah, I didn't know where to translate. I don't know if he's like a real shop or if they
Speaker 1 (17:39)
Oh, yeah, I know what you mean like.
Speaker 2 (17:41)
Is it just?
Speaker 1 (17:43)
Money laundering, okay, and here, that's crazy.
Speaker 2 (17:48)
So many bars, I think, yeah, yeah, yeah, if you go from the Thomas start sort of I think they're like, 8 or 9, and they're here, there's another one, there's another one. Yeah, I don't know.
Speaker 1 (18:02)
Did you interesting? Yeah, there's nothing but barbershoffs. I guess.
Speaker 2 (18:07)
I would go there, okay, and then Yeah, sometimes I will go to my Turkish supermarket. But yeah, this is not for me. It's far away, far away there.
Speaker 2 (18:23)
I passed 3 other ones, but I don't like the massive stuff. Yeah, I like market. But and sometimes feels like because we go there, I feel No.
Speaker 2 (18:40)
Yeah, I'm not a racist or something, but then you have like the opposite. Then, I feel sometimes I don't feel welcome.
Speaker 1 (18:48)
Strange sport. You're the foreigner there, okay? Okay, okay, you also mentioned that you have children right?
Speaker 1 (18:55)
Do they play around in this area or do they go play elsewhere?
Speaker 2 (19:00)
The claim in my neighbour, oh Canada, here, the most of the friends, because I'm divorced, like train, half years ago, they lived where we left before, so yeah, the friends were living. There are Nearby the hofca.
Speaker 1 (19:19)
Okay, now we're going to be moving into the closing questions. So if you could change one thing in this neighbourhood, so improve the resident's health and well-being, what would you change and why?
Speaker 2 (19:40)
I don't know, this is already
Speaker 1 (19:41)
It's a big question.
Speaker 2 (19:43)

Rose, I think like I cannot. I can change the roads help the neighbourhood, yet. A safety but I don't know, because from the friends of my New River nearby, the art part Like a lot of Awful lost.
Speaker 2 (20:12)
They have a lot of problems with people who are sitting in the car, smoking weed, and they throw like the balloons, the lack house, and it's like gas with the balloons. And yeah, yeah, and then they throwed away. They dump garbage.
Speaker 2 (20:33)
I see, like every morning they find new things, so a lot of especially, I think young Adults from, I think Turkish community or yeah, there it is, they don't have a place to be not at home to do things like that. So then they are going to sit in the car and they have the music loud and So perhaps for that generation Like social and there's also a mosque. To have a space where they can sit
Speaker 1 (21:17)
Okay, okay, like a facility for
Speaker 2 (21:20)
But I don't know whether it's those people would go there, okay, but yeah.
Speaker 1 (21:25)
All right, no, that's interesting. Is there something that you used to do in this neighbourhood that you stopped doing? In terms of life, like it's just the same for the last few years.
Speaker 1 (21:35)
I think, okay, all right, my very last question was, who else in the neighbourhood? Would I talk to, because I had to do with multiple interviews? But I think this is already my last 1 at 10 off?
Speaker 1 (21:47)
But like, for example, I would have asked, like, how were the people here like, like, could I just approach somebody randomly and ask them questions who have to be careful if anyone's aggressive or
Speaker 2 (21:57)
I think, especially this time it's like It's okay, I'm not afraid I think you don't have to be afraid like fear is the
Speaker 1 (22:07)
Another good thing it's holds you.
Speaker 2 (22:08)
Yeah, but you could you have to be maxam, is it's not that you can do everything but you just think like a normal person or something, if you feel scary, scared, then go away, but I don't feel like that because I think Most people are a good yeah, so deal. All right. I would.
Speaker 2 (22:36)
I would sent you to I would, I think I don't know, like the Turkish people I don't know the old ladies or they don't speak the Dutch language so well English. I don't think I would change to my colleague. Okay, but she left nearby the kyscrim, it's the art.
Speaker 1 (22:59)
No rare Roman, okay, okay?
Speaker 2 (23:01)
But yeah, I already have to ring, but some people they don't want to
Speaker 1 (23:06)
But it's fine because I already have, because I just needed minimum two people, but you're my fourth person already, so
Speaker 2 (23:12)
My colleagues, she's born here, oh hey, that's why she's 64 okay? And she was, I think she was born, switch forward, and she still lives here.
Speaker 1 (23:29)
Wow, she brunnows everything you know.
Speaker 2 (23:32)
Since insurance, because the worst back Is it travellers? Yeah, you know, it's yeah, I know what you're talking. It's like a big place for travellers.
Speaker 2 (23:41)
In the beginning, when she was young well, and then they spread it up, and a lot of people live in the houses now, so it's a poor Part of exciting.
Speaker 1 (23:53)
Well, I actually did not know that this is interesting. So yeah, I mean, I have enough, but for example, another time I could maybe do interviews, if I needed to would be next morning, so perhaps if I needed an extra interview, I could also just go down and you know, ring the bell or something.
Speaker 2 (24:09)
Yeah, I think I don't know if she's also a teacher. I don't know if she has to work. But she is also an artist.
Speaker 2 (24:16)

So if you go there, then you have Christ crime and She lifts, if you have the exposition place, she lives on the right side. Okay, the 2 friends mine live there and the Arthur's building one as a musician and the other one makes things with metal, okay? But yeah, and there's when I think long time ago, there were a lot of sports facilities here.
Speaker 1 (24:46)
Wow, they're bow happened. Do you know anything? Yeah, no houses?
Speaker 1 (24:50)
Oh, they're all
Speaker 2 (24:52)
So which he knows like everything from the neighbourhood. Wow, that's Okay, really interesting person.
Speaker 1 (25:00)
Interesting, okay, I actually, because even though I have to do this, because it's a university project, I like to learn about things too. So I would actually not mind giving an extra interview, maybe at some point in the future. But I mean, I don't know if I have the time for but that is definitely interesting like
Speaker 2 (25:17)
Yeah, and the most of them in the Saturday Sunday. Also, the exposition plays. Sometimes it's terrible, sometimes really nice.
Speaker 2 (25:24)
Okay, but you can walk. It's for free. You can go there, okay.
Speaker 1 (25:29)
Interesting, alright. Oh, perfect. I answered all the questions that I needed to no.
Speaker 1 (25:34)
It's fine. I like you got you had pretty detailed answers, which is nice because it's just good to have as many information as possible.
Speaker 2 (25:41)
I think there are a lot of different people in this neighbourhood, and that's also
Speaker 1 (25:46)
Yeah, definitely. Because I had some similar answers, but also a few different types of events. Because you focused a lot more on, for example, like the hobby thing like, you know, things that weren't covered by the young people.
Speaker 1 (25:58)
So I think it's good. It's good. I hope I didn't take too much of your time.
Speaker 1 (26:02)
Yeah.
Speaker 2 (26:03)
I will share.
Speaker 1 (26:04)
Success. Yeah, thank you very very much. You'll see you got it, have a nice day.

Interview 5

Speaker 1 (00:00)
Um, hello, yeah. So I have the interview ready. And now we're just going to ask you a few questions, so how long have you lived in this neighbourhood?
Speaker 1 (00:07)
Because this is door knucker's west right Y.
Speaker 2 (00:09)
Nurley won yea.
Speaker 1 (00:10)
One year one year, okay, okay, and why did you come here like what watch Here origin?
Speaker 2 (00:15)
Who's that metal here I know I live as a city. Okay, I can't believe here box.
Speaker 1 (00:21)
Also in other books, though. Okay, so nearby, okay, so okay, one year has it improved. Has it gotten worse?
Speaker 1 (00:28)
Is it the same over the one year?
Speaker 2 (00:30)
Or is weird chocolate knock?
Speaker 1 (00:32)
Food, good neighbourhood.
Speaker 2 (00:33)
Oh, no, we've never
Speaker 1 (00:34)
So. Normally every week day, what do you do? What is the normal day you get up?
Speaker 1 (00:41)
You go to work, or what do you
Speaker 2 (00:42)
No, I'm sick and still okay. Not only I'm working. Okay, I do I work along a long time, I work for my 6 years.
Speaker 1 (00:51)
Okay.
Speaker 2 (00:52)
Have richidique, okay, now I've tried to come back. We go to work, at least something like that, you know.
Speaker 1 (00:57)
Yeah, just a quick question. How old are you, by the way.
Speaker 2 (01:00)
Holiday, yeah.
Speaker 1 (01:01)
151 okay, so now we're going to be speaking about the nature of connections and community in this neighbourhood. Yeah, so who do you usually see or speak to when you're in the street, and do you know their names?
Speaker 2 (01:14)
II don't think that the names because a lot of money names you can, as all the name is anyone.
Speaker 1 (01:19)
All right, I is true.
Speaker 2 (01:21)
Main numbers are
Speaker 1 (01:21)
Okay, next commission, my name is pun.
Speaker 2 (01:23)
Haha moved, yes, okay, you know, I didn't look better.
Speaker 1 (01:27)
Indonesia.
Speaker 2 (01:29)
Rip, yeah, bid, yeah, yeah, I didn't spend
Speaker 1 (01:31)
So you see me and you already know, but no
Speaker 2 (01:33)
Let me know I'd be. I didn't find my way at watching now. What is it?
Speaker 2 (01:36)
It's ok, the cause out of people there speak together. They have together, it's not any programme.
Speaker 1 (01:40)
It's good, and so like, for example, you speak, you see them, you say hell.
Speaker 2 (01:43)
I don't know.
Speaker 1 (01:45)
Obviously, yeah, so just a slight deviation, but let's say you have a friend and you want to hang out, you sit down during a coffee, you have a chat. Where do you go in this neighbourhood? What do you recommend?
Speaker 2 (01:57)
To the Turkey Turkish bar, or my friend, no
Speaker 1 (02:01)
Okay, that's good. That's good. Okay.
Speaker 1 (02:05)
So I was assuming that, for example, if you need help to pick up something heavy or to bring something, you have people that can help you.
Yeah, yeah, I have, hey, okay. Okay, okay, yeah, there's a few more questions, but about the connections, but if you've only been here for one year, I don't think that's that relevant.
Speaker 1 (02:21)
But now we're going to talk about other stuff like the environment itself so Do you think that this is safe in the day or does it get bad at night, or is it still ok? You walk around at night?
Speaker 2 (02:34)

So I just my idea, I live here one, yeah, at it, just go, you can walk, because not any problem. Okay, give him by the understand each other and this role I'm anything else, okay, played garden for the children. It's a season every season, every cell on it's talking, they're here you're going to do everything.
Speaker 2 (02:52)
If you're, if you are doing, you're kind of still hold.
Speaker 1 (02:54)
Okay, okay.
Speaker 2 (02:55)
Let's go and it's safe. It's safe, it's not a new problem. It's not danger or something like that.
Speaker 1 (03:00)
Now a question is, how do you feel about the traffic? Because sometimes last week, I interviewed a bunch of people. Yeah, they say, sometimes the cars go very fast, a new experience that sometimes
Speaker 2 (03:10)
Where sometimes everywhere, Sam programme, we're same problem everywhere, pushes that a lot. Too many people are clear criminal, something like that problem.
Speaker 1 (03:21)
So then, for example, like you've been here for one year, nothing's happened to you and nothing bad happens. Okay, okay, that's good. Okay, I'm almost done I almost a second page.
Speaker 1 (03:31)
Now we're talking about the green spaces and the environment, and all of that, so if you want to relax, where do you go outdoor?
Speaker 2 (03:38)
I go okay outsider. It's bus walking by girls a lot of manages to go, as it's just nicely place, very nice.
Speaker 1 (03:45)
People say that the green species that are good. So yeah, and what time of the days your favourite to be around for outdoors activities afternoon?
Speaker 2 (03:55)
Evening I have not. I'm no I agree every time. At most point a pover team I wake up early in the morning.
Speaker 2 (04:04)
It moves, I shouting, go to sharp protections and food. I go home, I sometimes I go to familiar.
Speaker 1 (04:10)
Okay. Okay. Now when I'm going to have a question about the nature of the people you contact, so do you typically talk to people closer to your age or younger or older?
Speaker 1 (04:21)
Doesn't matter, everybody, and also same for a nationality. Do you speak to everybody from the different
Speaker 2 (04:26)
Commission, I mean, different speaking in there, we are human, a suicide
Speaker 1 (04:32)
Very good, very good.
Speaker 2 (04:34)
Nowhere, look at angel mister, f*** engineers, you're f****** goods, f*** this, but
Speaker 1 (04:37)
We're going to be like, who, yeah, no. I'm that's really good. Yeah, so now, by the way, yeah, thank you for answering the questions.
Speaker 1 (04:43)
Now there's just a few questions left, so if you could change anything about this neighbourhood, yeah, what would it be one thing? One thing you don't like
Speaker 2 (04:52)
Speech, this is best. No, he's no jealous, no jereous, no.
Speaker 1 (04:55)
So you would like everything about this in
Speaker 2 (04:57)
Very well, but no jealous is not easy. There's no key links, no, there
Speaker 1 (05:00)
Fair enough, okay, so if there's one thing that you could do to improve the health and well-being of people here in general, what would you do?
Speaker 2 (05:11)
I've doing nothing special 18-year-old. Captains, evolution superhead, okay, I can't change it. I cannot make it better than that.
Speaker 2 (05:19)
The way is
Speaker 1 (05:20)
Okay, okay, okay, fair, do you have so basically? I last week, I went about asking around them a bunch of random people, but the people that I found tended to be younger people so closer to my age. Do you have any suggestions in this neighbourhood of people that it could speak to of a different age groups?
Speaker 2 (05:38)

We have here several locations, but I'm not there over the area.
Speaker 1 (05:42)
Okay, so for example, do you recommend if I just walk around, I find somebody I could just ask some questions without be okay, no wonder. All right. Perfect.
Speaker 1 (05:49)
Thank you very much for the interview. It was a bit short, but thank you for answering my question. Have a nice day, sir, thank you.

Interview 6

Speaker 1 (00:00)
Yeah, of course, go for it, so yeah, my name is pine. I'm a fourth year bachelor studenting. Physics, and I'm just here to have given interview, and I've already been here last week in the same neighbourhood, to interview a bunch of people.
Speaker 1 (00:13)
So nice to meet you just one thing I need to know about you. How old are you?
Speaker 2 (00:18)
23.
Speaker 1 (00:19)
Okay, and what do you do like? Do you work? Okay, and do live in this neighbourhood, like it's okay, okay, that's good, that's good, so now we can proceed.
Speaker 1 (00:28)
So how long have you lived in doornaker's west like this neighbour?
Speaker 2 (00:31)
I just tried.
Speaker 1 (00:36)
What brought you in this neighbourhood specifically? Family, okay, okay, so you stayed here for around several years. What about the neighbourhood has changed since you arrived and has it changed for the better or for the worse?
Speaker 1 (00:51)
Or not much as all
Speaker 2 (00:55)
I think you know much is all it's a bit better. Because we have places to become with the people
Speaker 1 (01:07)
Interesting. Oh, did you elaborate on that like? Are you seeing those communities communities?
Speaker 1 (01:13)
Okay for children? Okay. Okay, so tell me every like.
Speaker 1 (01:18)
What is your normal weekd in this neighbourhood? So do you wake up, go to work? What do you do here like?
Speaker 1 (01:23)
What exactly is a normal weekday for you?
Speaker 2 (01:27)
I go to work. It's the same every day I stand up. I'm going to work.
Speaker 2 (01:37)
I've come home. Naloop, what can I do?
Speaker 1 (01:43)
Okay? So now we're going to talk a little bit about the social connections in the sense of community. So in this neighbourhood, who do you usually see, and do you speak to them?
Speaker 1 (01:52)
Do you know anybody by name or you're close with them, etc. France, friends but from this neighbourhood or outside of
Speaker 2 (02:01)
Camera from this level
Speaker 1 (02:04)
Banalou, okay, okay, okay, so I'm assuming then the people that you really know in this neighbourhood. Really well, it's a great by name, just your family, I'm assuming direct. Yes, okay.
Speaker 1 (02:15)
If you wanted to meet app with somebody and your family in this neighbourhood, where do you go for like a chat or a coffee, you go to each other's houses, or is there any cafe that you recommend?
Speaker 2 (02:25)
Yeah, Goff is Salva.
Speaker 1 (02:31)
In this neighbourhood or outside of the neighbourhood centrone okay, okay, I see I see, but then for example, let's say that you need to pick something heavy up, like you have a package that got delivered to you. Do you have anybody that you think can help you or do you call a family? Member to help you.
Speaker 2 (02:51)
Well. Yeah, if you can ask someone or he's open to help you. Okay, it's kind but more times I call our friends or
Speaker 1 (03:03)
Okay, okay, good to know. Um. So this is a so do you know the people in your street decently, well, and better than because this is a big neighbourhood, right?
Speaker 1 (03:16)
You know, there's it goes from here to over there. I'm assuming that, you know, people mostly from near York place rather than I thought of it, right. Or do you know people from all of this neighbourhood?
Speaker 2 (03:28)
No, I can I know people.
Speaker 1 (03:31)
A Int of eindo, and okay.
Speaker 2 (03:34)
I lifted and another
Speaker 1 (03:38)

Okay, 16, yes, oh okay, interesting. Okay, and okay, now we're going to be talking about the specific environment of the neighbourhood itself, so do you feel that at night? It is worse to walk by yourself than during the day.
Speaker 2 (03:55)
No okay, it's safe, ok?
Speaker 1 (03:58)
And have you heard of anywhere in this neighbourhood? Maybe where it might not be safe, or do you think it's generally good in, like all
Speaker 2 (04:07)
Is a specif?
Speaker 1 (04:08)
Specifically.
Speaker 2 (04:10)
Oh
Speaker 1 (04:12)
Drunk, yes, I've heard a few
Speaker 2 (04:16)
Relax, but.
Speaker 1 (04:18)
Walking around and coofing around
Speaker 2 (04:21)
It don't take action or do a bad
Speaker 1 (04:24)
Okay, they're just, they're loitering, you know, okay? Now we're going to be talking a bit about the traffic situation. I've preparingly heard from a lot of people that sometimes here, the cars go really, really quickly.
Speaker 2 (04:37)
That's that this right
Speaker 1 (04:41)
So okay, that's so you agree like you've seen that before, and you don't think that's a really good thing that the cars go really quickly right?
Speaker 2 (04:48)
Maybe I now excepted, I know itself by myself. Okay, when I drive my car right. Okay, but it's not a good fortune.
Speaker 1 (04:55)
Yeah, there's safe zones. And all of that. Okay, so beyond, like the traffic or the people, is there anything about this neighbourhood that makes you feel unsafe, or is there anything really issue with it?
Speaker 2 (05:09)
I think is Noah riguish.
Speaker 1 (05:10)
Okay, okay, good. Now we're going to be talking about the public species and the usability. So let's say that you have a free day or you have a weekend, you want to spend the time outside to relax.
Speaker 1 (05:22)
Where do you go? And what how do you do? What time?
Speaker 2 (05:27)
I am less time, I think I took. It's really It's not the how can I explain that it's not the When I go most go to amsidam or route there. Okay, I go outside it into my wife because I took it's small, it's a small it's, it's the I gonna depress.
Speaker 2 (05:57)
White, it's not much people, it's no
Speaker 1 (06:02)
Capacity, yeah, yeah, yeah, I know exactly what you
Speaker 2 (06:06)
Britain. I. We go to London, it's much people more people, I guess.
Speaker 1 (06:14)
Low, when people I get you, so you yourself like a bigger, bustling community with okay?
Speaker 2 (06:20)
But when I go I go to the city or I go to another arrest.
Speaker 1 (06:25)
Okay.
Speaker 2 (06:26)
Uh, oh.
Speaker 1 (06:29)
Okay, so for example, like because there are some green spaces in parks here, but I assume you prefer to go outside of einovan done right? Okay? Okay, now we're going to be talking about the contact between the different people group, so do you speak to people other than your family?
Speaker 1 (06:45)
Do you speak to people like your age or do you speak to older people, or do you speak to younger people?
Speaker 2 (06:51)
We Yes, of course. I speak more people. Not only family, I speak okay in the neighbourhood.
Speaker 2 (07:01)
Yeah, people I speak unrook. Okay, I speak with police.
Speaker 1 (07:06)
But you speak to more people in specific, or everybody roughly the same
Speaker 2 (07:12)
Sometimes I have good connection with people. Then is it the better and normally is the same?
Speaker 1 (07:19)
Okay. Okay, and then do you speak to people of all different backgrounds, or do you choose to be with your community more?
Speaker 2 (07:28)
Yeah, no, the command okay, all right, so the bankrum also the background. Okay, it's a 50% 50 okay?
Speaker 1 (07:40)
Also, it's roughly equaled in for background and for age. Okay, that's good to know now. Thank you very much.

Speaker 1 (07:46)
I just have a few closing questions to give. So if you could change anything about living in this neighbourhood, to make it, what you would prefer, what would you change about it? And it could be anything?
Speaker 1 (07:57)
So what do you have in some roof some rules like, what exactly
Speaker 2 (08:03)
With More confirms. Yeah, promisely.
Speaker 1 (08:13)
Only this neighbourhood, because it's specific to what you've seen and your experiences
Speaker 2 (08:19)
Yeah, I don't know where I think on work.
Speaker 1 (08:23)
Worktime, so let's work.
Speaker 2 (08:26)
Okay, but that's not the neighbourhood. That's it.
Speaker 1 (08:29)
Find obvin in general, okay, maybe
Speaker 2 (08:35)
So I have not think, so I think maybe the car
Speaker 1 (08:43)
Like more regulations, maybe
Speaker 2 (08:48)
Frag. Baycoms, when the comments come over.
Speaker 1 (08:56)
You know, when the welcome
Speaker 2 (09:00)
You can train or eat something with more people, you know.
Speaker 1 (09:05)
Like you cannot, or you, can you
Speaker 2 (09:08)
Organisation.
Speaker 1 (09:09)
So more organisation for more events to happen. Ah, that's a good point, because I've spoken to some people and they say that in this neighbourhood, there's not much like activities in the neighbourhood itself. Right?
Speaker 1 (09:22)
So okay, that's a good point. That's a good point. Thank you for letting me know if you could change one thing to help the well-being and health of the residents.
Speaker 1 (09:29)
What would it be? Do you have anything or not? One code site, walk outside more.
Speaker 2 (09:37)
Side with people with people to talk to talk about bad things about good things.
Speaker 1 (09:45)
Like a community vibe, okay, and everything
Speaker 2 (09:50)
Type people from outside, you know, yeah.
Speaker 1 (09:54)
That's a very good point. Thank you very much so basically like I said, I'm just doing these interviews, and I'm just basically walking around because last week, a lot of the people I interviewed were like younger people. So like, you know, 1458 and 16, like the teenage high schools and I think my supervisor said tried to branch out to a more people of more ages so do you think that I could just walk around and talk to random people and get answers, or you think it will be difficult or do you think?
Speaker 2 (10:25)
It will be a it will be, it will become school, but it takes time, but takes 1 week. How long you
Speaker 1 (10:34)
I think I have Like 4 days 40s.
Speaker 2 (10:38)
Before I do.
Speaker 1 (10:40)
There's just so the course that I'm doing is for entrepreneurship. And so basically this is now outside of the interview. I'll give you more details, I study.
Speaker 1 (10:48)
Yeah, so I'm a university and one course. So I'm urgently physics, so I do like quantum fluid. I know, but I decided to take other electives, so my it's easier.
Speaker 1 (11:00)
The elective that I'm doing, so they give us a list of many neighbourhoods. Inoven, our group is selected a random one. So we got their naker's west, and we need to just do it an investigation about the livelihood.
Speaker 1 (11:13)

So we interview people. We look at data, we see what people like, and what people don't like, but of course, information in internet is just data that other people get what data that we get is primary. So they want us as a group to walk around and ask residents, because what people say on the street is different to maybe than what average numbers will save, you know, so that's basically what I'm doing right now.
Speaker 2 (11:38)
And you'll stood be on the definitely.
Speaker 1 (11:41)
I studying the Technical University. I don't know.
Speaker 2 (11:45)
IO. C.
Speaker 1 (11:46)
I do some quantum stuff. That, oh, quantum is like so You look at really, really, really small articles, right? So for example, like you know, I can sell the interview.
Speaker 1 (12:00)
Okay, but thank you very much for the interview

Interview 7

Speaker 1 (00:00)
Thank you very much for this opportunity for this interview. I hope I'm not bothering you as just the 5 to 10 minutes. I give you a few questions about just life and this neighbourhood, so you live in this neighbourhood race.
Speaker 1 (00:11)
Ok, so how long have you lived in this neighbourhood in doornakers, west?
Speaker 2 (00:16)
48.
Speaker 1 (00:18)
10 years okay, and what brought you in this neighbourhood specifical
Speaker 2 (00:22)
I. I srew, I have born here, I'm still not born back, but I steal here what a long time
Speaker 1 (00:30)
Permanent, with the family? Okay, okay, and if you don't mind me asking, how are you? Exactly?
Speaker 2 (00:35)
What do you think?
Speaker 1 (00:37)
Oh, if you oh, that's pretty good. Okay, that's cool. How would you say the neighbourhood has changed since you first moved in?
Speaker 1 (00:45)
Because it's a long time, you notice changes.
Speaker 2 (00:47)
Very different.
Speaker 1 (00:48)
No different.
Speaker 2 (00:51)
Best was very, very good.
Speaker 1 (00:54)
So it's gotten worse over time.
Y.
Speaker 2 (00:56)
It is coast. There are many other people living in here.
Only less.
Speaker 1 (01:06)
They just move in.
Speaker 2 (01:08)
And you can no week which one which will N
Speaker 1 (01:13)
Yeah, but.
Speaker 2 (01:16)
No, save us.
Speaker 1 (01:18)
Before yeah, you
Speaker 2 (01:20)
Mency, the people is mean me and not
Speaker 1 (01:26)
Community.
Speaker 2 (01:28)
And only just, and it achieved, it's made because everything change The attention of people is change. It does not be me the only this
Speaker 1 (01:45)
For money.
Speaker 2 (01:46)
How's oh yeah, house square bidgee.
Speaker 1 (01:52)
Okay.
Speaker 2 (01:54)
Not easy.
Speaker 1 (01:56)
Before okay, okay.
Speaker 2 (01:58)
Poor we can have you neighbour. You can go neighbours called and what for me? I thought to this computer and telephone gift make lift.
Speaker 2 (02:12)
Well, it hift, yeah, well, good things.
Speaker 1 (02:18)
That's also bad things to yes, okay.
Speaker 2 (02:20)
People aren't.
Speaker 1 (02:22)
Separated, not as close Before you I interviewed one person knew he came here 2 years ago. He say, also, though he wants to talk to more people, but people don't talk that much instead.
Speaker 2 (02:35)
No question.
Speaker 1 (02:36)
Because of technology, okay, interesting.
Speaker 2 (02:39)
Technology, be. Every day, technology.
Speaker 1 (02:45)
You knew you can meet
Speaker 2 (02:47)
Uh, tick, every elegant moment. Of course you can't it. Pick.
Speaker 2 (02:55)
Hold you out, what new
Speaker 1 (02:58)
Okay.
Speaker 2 (02:59)
Of course. They change the change at air commitment, changes all everything everything old to okay, and that's different before. Yeah, you can say you can say children, okay?
Speaker 2 (03:13)
People like me older don't hold them like Israel, Israel.
Speaker 1 (03:20)
Isolated, yes, okay, okay.
Speaker 2 (03:24)
And distrusting, let's say and see it secrets, I can say, well, people, old men, people.
Speaker 1 (03:36)
You know sick sick, yeah.
Speaker 2 (03:39)
It's Alzheimer.
Speaker 1 (03:41)
Oh, that suddenly forget.
Speaker 2 (03:43)
Yeah, and they difference neighbour, different
Speaker 1 (03:48)
Quicken, yeah, yeah, yeah.
Speaker 2 (03:51)
We cannot say, oh. Neighbour was today. We know.

Speaker 1 (04:00)
Okay, well, thank you for that information. So.
Speaker 2 (04:03)
PM's one yeah, just So yeah, Quinny, given 2, yeah, it's like, yeah, yeah, and definitely university the argument with chairing the national, the electory, China, so he crazy.
Speaker 1 (04:20)
Yeah, yeah, all right. Thank you very much for the information that you've given me. So when I'm assuming every day when you wake up like you work here, how exactly is it like?
Speaker 1 (04:30)
Is it the same? You go here you work, you go home.
Speaker 2 (04:32)
Yeah, I can't look at some. Someone else look like hell.
Speaker 1 (04:37)
You'll help here you have today today. Oh, okay, okay, okay. So then I'm going to ask a bit about the community and the social connections, or actually, yeah, we can pauses a little bit.

Interview 8

Speaker 1 (00:00)
It's fine. So are you of this neighbourhood again? Okay, yes, and how long have you living this NE?
Speaker 2 (00:06)
Fortunately, use.
Speaker 1 (00:07)
14.
Speaker 2 (00:08)
Okay.
Speaker 1 (00:09)
Wow, okay, and do you think that the neighbourhood is like it's got to the worst? It's gotten better or has it stayed the same? I think it's stable, stable.
Speaker 1 (00:17)
Look it.
Speaker 2 (00:17)
And might Steven's got a bit
Speaker 1 (00:19)
Worse.
Speaker 2 (00:20)
We're sometimes changing it.
Speaker 1 (00:22)
So I'm going to focus just R$, because I'll ask one question from each topic. So in terms of connections, how well connected are you within the community? Are there, people that could help you?
Speaker 1 (00:30)
If you need a packet, yeah, sure, yeah, okay, now I'm going to be talking about like just day-to-day in the safety, so you feel like this neighbourhood is good for safety, or do you feel uncomfortable walking in the dark, or are there places you want to
Speaker 2 (00:43)
Oh, if I said time my strange so nowadays I feel a little bit more uncomfortable with walking in the dark, but yeah.
Speaker 1 (00:52)
Any areas who'd devoid or Just don't mind.
Speaker 2 (00:55)
It's, I think it's everywhere of the
Speaker 1 (00:57)
Okay, ok.
Speaker 2 (00:58)
Because what do I don't want you busy?
Speaker 1 (00:59)
Is there indeed an issue with car speeding? Or do you feel like it's
Speaker 2 (01:03)
No, I think that's quite okay.
Speaker 1 (01:05)
Okay, interesting. Now I'm going to talk about green spaces in public spaces. So there are a bunch of parks here.
Speaker 1 (01:11)
If you wanted to relax a little bit like you had a free day, where would you go? Would you relax here or do you relax at home or you relax outside of the name?
Speaker 2 (01:19)
Once to say, I have a little child, we go outside and which is quite ok.
Speaker 1 (01:23)
Cook it um. Last question before closing. So in terms of the contact, we have with different groups of people.
Speaker 1 (01:29)
You contact people mainly, they're in the same age group as you or above, where below, or what
Speaker 2 (01:36)
Mortoring, the state.
Speaker 1 (01:37)
We'll see out YouTube, and when it comes to people from different backgrounds, like linguistic backgrounds or national backgrounds, it's the same case.
Speaker 2 (01:43)
Like, yeah, that's the same, so it's mostly Big part of my family. When it comes to relations and contacting people, it's most important
Speaker 1 (01:55)
Do you think that this neighbourhood? Is it more better job of integrating people into neighbourhood to do communal activities or
Speaker 2 (02:02)
40 climate change, but suppose as always space.
Speaker 1 (02:04)
Always special it all right, so thank you very much for this interview. I'm now just going to do some closing stuff, if you could change one thing about this neighbourhood, what would it be safety safety? Yeah, could you elaborate a little bit, just like the night stuff or
Speaker 2 (02:16)
Night stuff, yeah, maybe I don't know what they can do about it, and they're already people walking around it when in the evening. Look for the safety, but still it doesn't feel very safe. Don't have this neighbourhood, is not the safety place of eto.
Speaker 1 (02:31)
Teah.
Speaker 2 (02:33)
So but I think that's again related to this time of I mean, it's really this time it's nowhere safe anymore, okay?
Speaker 1 (02:43)

Alright. Sure. And yeah, so I'm basically just doing this in terms where I'm talking to a bunch of friends of people.
Speaker 1 (02:48)
Do you think I would find a success in just walking up to random people or because I did these interviews last week already? But they were with people that were younger, so my major like the high school students. Yeah, and it was really good information, but the supervisor said, I needed to branch out and go for different age groups.
Speaker 1 (03:03)
Do you think like given like a few days, I could find the incorrect amount of information.
Speaker 2 (03:07)
I think language will be a problem.
Speaker 1 (03:08)
Language models.
Speaker 2 (03:09)
Okay, problems. Yeah, you could be successful. Okay, we'll be yeah, you could, you could find people
Speaker 1 (03:18)
Oh, and one more thing, like, how old are you exactly? This was 40 for us who's your entire life? Yeah, perfect.
Speaker 1 (03:24)
Thank you very much for your time. Thank you very much for giving me the interview. Good luck.
Speaker 1 (03:27)
Thank you very much and having a nice day. Thank you.

Filippos

Interview 1

Speaker 1 (00:01)
Okay, so how long have you lived in Dornackers West and what brought you here originally?

Speaker 2 (00:06)
So I'm a student studying at TUE and I've been living at Dornackers West for about two years now.

Speaker 2 (00:14)
What brought me here was the housing crisis and I couldn't find a place in the center of Eindhoven, so Dornacker West was a good option for me.

Speaker 1 (00:28)
Could you walk me through a normal weekday for you here?

Speaker 1 (00:30)
Like where would you go or who do you typically see?

Speaker 2 (00:34)
Usually I just wake up, I go to uni for the day and then I would come back once I'm done with uni, go to the supermarket, buy some food, go home and cook and just keep on studying at home or go to the gym.

Speaker 2 (00:49)
I don't really spend too much time out in the neighborhood as there's not that much to do.

Speaker 2 (00:54)
So usually my route is just uni, home.

Speaker 1 (00:58)
Okay, And would you say any people in the neighborhood that you would greet by name or have a real conversation with?

Speaker 2 (01:07)
As I said, I don't really spend too much time during the day in the neighborhood as I would be at uni.

Speaker 2 (01:14)
But if I were to go for a coffee, there are only a few coffee shops that open quite late.

Speaker 2 (01:21)
So I don't really hang around there much and no, I don't know.

Speaker 2 (01:26)
I don't know people by name, but I recognize some usual faces.

Speaker 1 (01:31)
So do you have anyone that maybe you could ask favors for from like picking up a parcel or giving you a lift or helping you with something around the house?

Speaker 2 (01:40)
So in my building, there's another theory student that lives below me.

Speaker 2 (01:45)
And I one time asked her if she could just pick up a parcel for me because I wasn't home.

Speaker 2 (01:52)
And yeah, that was it, to be honest.

Speaker 1 (01:55)
Okay.

Speaker 1 (01:57)
And how do you feel about walking around the neighborhood during the day?

Speaker 2 (02:02)
During the day it's peaceful.

Speaker 2 (02:03)
There's usually older people walking around in the neighborhood.

Speaker 2 (02:09)
But in general it's peaceful.

Speaker 1 (02:13)
It's fine.

Speaker 1 (02:14)
And what about after dark?

Speaker 1 (02:16)
Like later even at night.

Speaker 2 (02:18)
At night it's fine.

Speaker 2 (02:20)
I wouldn't say it's dangerous, but you just have to keep your wits about you.

Speaker 2 (02:24)
And you have to just...

Speaker 1 (02:25)
Anything suspicious you might have seen or?

Speaker 2 (02:28)
I haven't seen anything suspicious.

Speaker 2 (02:30)
But in general at night you always want to be a bit more careful.

Speaker 2 (02:34)
And sometimes you would see just people wandering around at night which maybe you don't want to interact with.

Speaker 1 (02:41)
At night.

Speaker 1 (02:42)
Makes sense, makes sense.

Speaker 1 (02:46)
Okay, and do you have anywhere to go within the neighborhood that when you want to relax or spend time outdoors, do you have any place to go within the neighborhood?

Speaker 2 (02:57)
As I said, there's two cafes that I know of that open pretty late.

Speaker 2 (03:02)
So if I would, I would go there, but

Speaker 2 (03:06)
Usually on the weekends, I just end up going to the center of Eindhoven, hanging around, meeting friends there.

Speaker 2 (03:11)
And I don't really...

Speaker 2 (03:12)
There aren't any spots, to be honest.

Speaker 2 (03:14)
There aren't many spots to hang out in the neighborhood.

Speaker 1 (03:17)
Yeah, okay, okay.

Speaker 1 (03:18)
And what about like any activities, physical activities like cycling or some sport?

Speaker 2 (03:25)
Cycling in the neighborhood is fine.

Speaker 2 (03:27)
I mean, I cycle every day to uni, so I found no problem so far.

Speaker 2 (03:32)
However, sports, I wish they would invest in

Speaker 2 (03:36)
a new football pitch or like a small park?

Speaker 1 (03:38)
Do you have any pitches or courts?

Speaker 2 (03:41)
We have one, but it's a concrete court.

Speaker 2 (03:44)
I mean, it's fine, but not ideal.

Speaker 1 (03:47)
Yeah, okay, okay.

Speaker 1 (03:48)
Makes sense.

Speaker 1 (03:52)
And at what times of the day do you usually feel most comfortable being outside in public spaces?

Speaker 1 (03:57)
I mean, why?

Speaker 2 (03:59)
Most comfortable, I would say at like around 12, 1 when

Speaker 2 (04:04)
You know, people are just walking by, minding their own business, doing their things that they have to get done during the day.

Speaker 1 (04:10)
Okay.

Speaker 2 (04:10)
And it's fine.

Speaker 2 (04:13)
Walking there during the day, it's peaceful, it's fine.

Speaker 1 (04:17)
Okay, okay, okay.

Speaker 1 (04:20)
Beyond crime or traffic, are there other things that make you feel physically uncomfortable, let's say, uneven pavements or poor lighting, lack of places to sit and rest?

Speaker 2 (04:32)
No, no.

Speaker 1 (04:33)
Not really.

Speaker 2 (04:35)
As I said, I don't spend too much time hanging around in the neighborhood, but nothing physical really makes me uncomfortable.

Speaker 1 (04:41)
So you don't really hang out during the day in the neighborhood, but you go out of the place night home.

Speaker 2 (04:47)
Yeah, exactly.

Speaker 1 (04:48)
For coffee or physical activities, okay.

Speaker 2 (04:50)
Or I would just be at home.

Speaker 2 (04:51)
But the one dangerous thing I would say is when I go to the supermarket across the road.

Speaker 2 (04:58)
And

Speaker 2 (05:00)
The crossing might be a bit dangerous because there are cars passing by and it's kind of like a main road.

Speaker 1 (05:07)
Okay, If you could change anything about living here, what would it be?

Speaker 2 (05:15)
I would definitely want more social spots to open up.

Speaker 2 (05:19)
Maybe even some new benches or some new cafes or restaurants that I can go to during the day just to relax with some friends.

Speaker 2 (05:30)
Maybe some, like I said previously, a football pitch would be really nice so I could play with friends and then other people in the neighborhood as well and make new friends there.

Speaker 1 (05:40)
So generally more social places.

Speaker 2 (05:43)
Yeah, more social places.

Speaker 1 (05:44)
Okay, And last question, is there anything else regarding safety or the community in this neighborhood that you think would be like a useful insight to give us?

Speaker 2 (05:56)
I have a funny story.

Speaker 2 (05:57)
So one time I was just going on a run and one guy came up to me and told me, don't run this way, turn the other way because there aren't police anywhere in that street.

Speaker 2 (06:10)
And I guess that shows that people are nice in the community, but at the same time that...

Speaker 2 (06:19)
There's some sketchy things going on there.

Speaker 2 (06:21)
Not sketchy, like...

Speaker 2 (06:23)
You know, like small crimes and stuff like that, I would say.

Speaker 1 (06:26)
Okay, so generally, would you say that you feel unsafe during the night or like any other place?

Speaker 2 (06:32)
No, no, I do not feel unsafe.

Speaker 2 (06:34)
It's fine.

Speaker 2 (06:36)
I feel good, to be honest.

Speaker 1 (06:38)
Okay, thank you.

Speaker 2 (06:39)
Thank you.

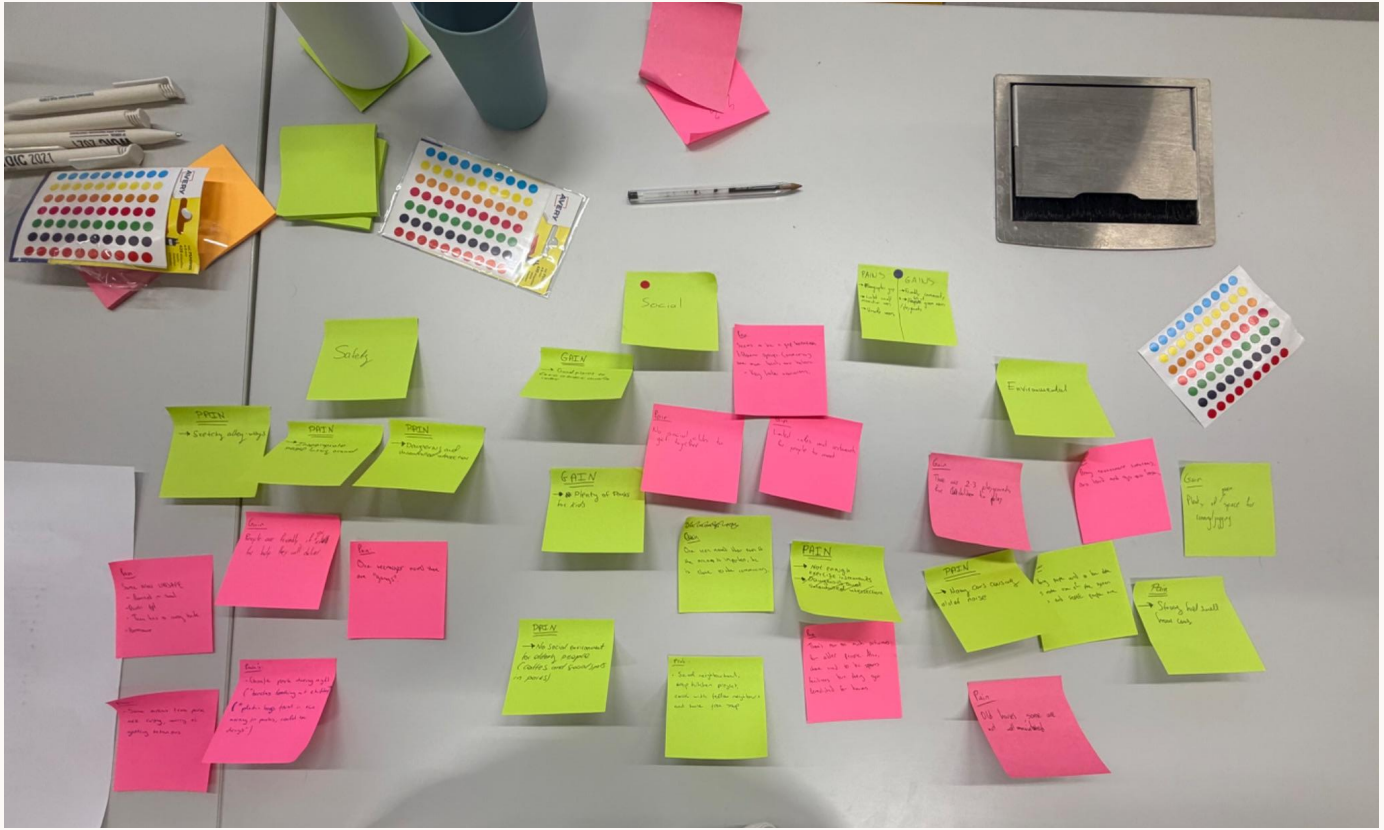

Marc

Interview 1

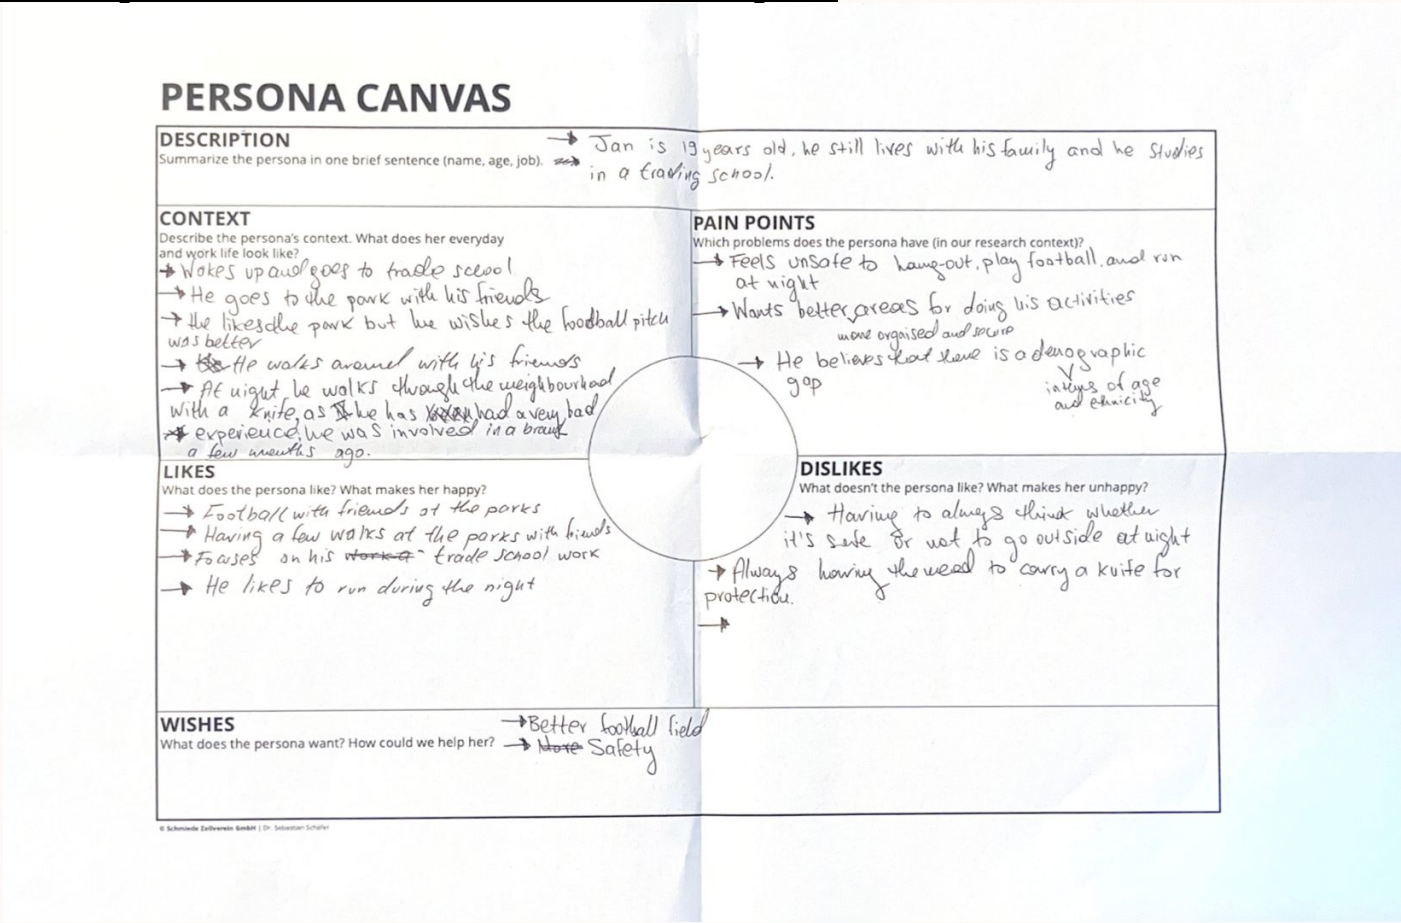

00:00:01 Speaker 1
Alright, so I'm gonna ask you a set of questions about the neighborhood here. And you can answer, but if you want you can skip it.
00:00:09 Speaker 2
Okay yeah sure.
00:00:12 Speaker 1
So how long have you been living here in Doornakkers?
00:00:15 Speaker 2
Uh, it's been like six years now I think. Yeah, six years, when I started uni.
00:00:23 Speaker 1
Okay. And what made you choose this neighborhood specifically, do you remember?
00:00:28 Speaker 2
Honestly, mostly price, if I'm being real. It was cheaper than like Strijp or the center, and it's still a decent bike to campus, so.
00:00:38 Speaker 1
Fair enough. Walk me through like a normal weekday of yours in the neighbourhood.
00:00:42 Speaker 2
Um, so I'm a student, so it depends a bit, but usually I bike to campus in the morning, come back in the evening, sometimes I stop by the market on the way back for, uh, whatever. Weekends is more just, I dunno, around the house, maybe a walk.
00:00:59 Speaker 1
Alright, that's nice. What parts of the neighborhood would you say affect you positively in terms of well-being?
00:01:07 Speaker 2
Hmm, I'd say, honestly the green bits, like there's parks close by my house, that's nice for clearing your head after studying all day. But if I'm honest I don't use them much anyways.
00:01:23 Speaker 1
Okay. Also another kind of personal question, what does being healthy mean to you?
00:01:29 Speaker 2
For me it's, uh, mostly mental I'd say. Like getting outside, not just sitting at a desk all day staring at a screen.
00:01:43 Speaker 1
When was the last time you exercised around this neighborhood?
00:01:47 Speaker 2
Uh, last week I think, I went for a run, but yeah the parks don't really have much, no equipment or anything, so it's just running or not much.
00:01:59 Speaker 1
Would you say the parks in this neighborhood are a social place for elders, or is it mainly kids that go there?
00:02:06 Speaker 2
Yeah, like I said, I don't go much. But when I go out for a run for example, I mostly see people walking their dogs. Don't really notice who they are.
00:02:18 Speaker 1
Where do you go when you want to relax?
00:02:21 Speaker 2
Uh, home mostly, or I'll just walk around, doesn't really matter where. Sometimes into the center if I want to actually do something.
00:02:31 Speaker 1
Do you feel safe walking around here, like during the day and also at night?
00:02:37 Speaker 2
During the day, yeah, totally, no issue. Night's a bit different, not, nothing's ever happened to me, but some streets I'll admit I walk a bit faster, especially the darker streets.
00:02:54 Speaker 1
How do you feel about the traffic in the streets in this neighborhood?
00:02:58 Speaker 2
It's, I mean it's not crazy busy, but I have seen some cars going crazy fast at some points. I almost got hit once, but I also wasn't paying attention, so, yeah.
00:03:13 Speaker 1
Have you noticed that being an issue for other people too, or mostly just you?
00:03:18 Speaker 2
No, I haven't paid attention to others to be honest.
00:03:28 Speaker 1
Okay, fair enough. How connected do you feel to the people in this neighborhood, are you close to some people?
00:03:34 Speaker 2
Not really no. I know my direct neighbor, we say hi, that's kinda it. It's not like, I don't feel unwelcome, it's just people keep to themselves I think, everyone's busy with their own thing. For example I mainly hang out with my friends around campus.
00:03:49 Speaker 1
So for example you wouldn't go for coffee with them?
00:03:52 Speaker 2
Nah probably not, I mean I don't really know them well enough for that.
00:03:58 Speaker 1
Do you think that's different for other age groups, like older residents versus younger ones?
00:04:04 Speaker 2
I mean, I have seen most groups of people together are on the older side, I think younger people mind their own business, so to say, and don't go together as much, at least with the others from the neighbourhood

00:04:20 Speaker 1
Are you part of any clubs, societies, maybe the church, in this neighborhood?
00:04:26 Speaker 2
No, no not really, most of my stuff is through uni, not really neighborhood based.
00:04:32 Speaker 1
What makes it easy or difficult to participate in neighborhood activities, clubs or associations?
00:04:39 Speaker 2
I think mostly I just don't know what's there, if there even is anything. I haven't paid too much attention, to be fair. But maybe I would try to join some activity if I knew of it, to meet new people.
00:04:53 Speaker 1
Are there any places in this neighborhood you'd consider sketchy?
00:04:58 Speaker 2
Uh, maybe some of the side streets at night, near the, I think it's near the cemetery, close to here actually. It's not that anything's happened to me, it's just less lit, feels a bit off. But nothing has ever happened to me or anyone that I've heard of.
00:05:10 Speaker 1
And on the flip side, is there anywhere here you'd say feels really nice, like a favorite spot?
00:05:17 Speaker 2
Um, honestly probably just the little market, near the shops. I always like to roam around the market and shops to see what is new and if there are any new offers.
00:05:30 Speaker 1
What facilities do you think are missing in this neighborhood, if any?
00:05:35 Speaker 2
Umm, maybe a gym. I just go to the scc one, but I haven't seen any gym close by. I have seen in some parks some machines but they seem a bit old, and I haven't actually seen anybody using them.
00:05:52 Speaker 1
Just a few more questions until we wrap it up. If you needed support, like practical help, who would you go to first?
00:06:00 Speaker 2
Honestly probably my parents, or if I can't reach them by phone, friends from uni.
00:06:09 Speaker 1
Okay, just some closing questions now, if you could change one thing about living here, what would it be?
00:06:16 Speaker 2
Ummm, I haven't thought of this to be honest. As I said, I don't do much life in the neighbourhood so I don't know. Yeah maybe what I said, having a gym close by, preferably cheap.
00:06:35 Speaker 1
Is there anything else you'd want to add, anything we didn't ask about that you think is important?
00:06:42 Speaker 2
Um, not really no.
00:06:49 Speaker 1
That's totally fair. Alright that's good to hear, thank you so much for your time.
00:06:54 Speaker 2
Yeah no problem, thanks.

Workshop Evidence: Workshop 1

Workshop Evidence: Workshop 2

PERSONA CANVAS

DESCRIPTION
Summarize the persona in one brief sentence (name, age, job).

→ Jan is 19 years old, he still lives with his family and he studies in a trading school.

CONTEXT
Describe the persona's context. What does her everyday and work life look like?

→ Wakes up and goes to trade school
→ He goes to the park with his friends
→ He likes the park but he wishes the football pitch was better
→ ~~He~~ He walks around with his friends
→ At night he walks through the neighbourhood with a knife, as ~~he~~ he has ~~had~~ had a very bad experience, he was involved in a brawl a few months ago.

PAIN POINTS
Which problems does the persona have (in our research context)?

→ Feels unsafe to hang-out, play football and run at night
→ Wants better areas for doing his activities more organised and secure
→ He believes that there is a demographic gap in terms of age and ethnicity

LIKES
What does the persona like? What makes her happy?

→ Football with friends at the parks
→ Having a few walks at the parks with friends
→ Focuses on his ~~work~~ trade school work
→ He likes to run during the night

DISLIKES
What doesn't the persona like? What makes her unhappy?

→ Having to always think whether it's safe or not to go outside at night
→ Always having the need to carry a knife for protection.
→

WISHES
What does the persona want? How could we help her?

→ Better football field
→ ~~More~~ Safety
